there remains an urgent need for a deeper discussion of the theoretical political and federal dimensions of the european codification project while much valuable work has already been undertaken the chapters in this volume take as their starting point the proposition that further reflection and critical thought will enhance the quality and efficacy of the on going work of the various codification bodies the volume

contains chapters by representatives of the common frame of reference the study group and the acquis group as well as by those who have not been involved in particular projects but who have previously commented more distantly on their work for instance those belonging to the trento group and the social justice group the chapters between them represent the most comprehensive attempt so far to survey the state of the codification project its theoretical political and federal foundations and the future prospects for enforcement and compliance

this volume analyzes the development of tanks and traces their history from the british attack at cambrai in 1917 during world war i through the airland battle of operation desert storm in 1991 this text gives a short history of the rise and development of armored warfare in the 20th century an assessment of the significant literature on tank doctrine and an evaluation of the role of prominent commanders theoreticians and tacticians a chronology of important dates and pictures depicting major changes in tanks across the years enrich this teaching tool and reference guide for teachers and students of military history history buffs and professional soldiers
