I occasione del ventennale del centro bibliotecario dell università degli studi di salerno è stato lo spunto per riflettere su due temi importanti la lettura in italia e nel mezzogiorno e la rivoluzione annunciata e non del tutto compiuta dell ebook la riflessione sui dati della lettura restituisce un quadro che può definirsi deprimente rilevando segnali di una vera e propria emergenza sociale formativa e culturale la riflessione sulla progressiva e incruenta evoluzione degli ebook mette in luce più di un ostacolo alla piena concretizzazione

the methodology of science is of a crucial importance for the building of science as a whole as well as for the forming of the different scientific branches that is it seeks among other things to find out what is the nature of the scientific image of the world what is the substance of the scientific law what methods and procedures could and should be used within scientific research in the field of social sciences these issues are also associated with the question of the nature of clarifying statements that social sciences provide are the statements of social sciences similar to the explanations from natural sciences or is it rather a revelation of the meaning and understanding of social phenomena based on a clarification of the system of rules is social cognition by its nature a causal explanation and is it rather an interpretation all these are questions of the methodological nature that show the way towards the answer with respect to the character of the resulting

scientific statement based on the examined issues and based on what the given scientific statement provides evidence this publication attempts to look for the answers to these questions and to establish possible grounds for their solutions

fundamental aspects of plasma chemical physics transport develops basic and advanced concepts of plasma transport to the modern treatment of the chapman enskog method for the solution of the boltzmann transport equation the book invites the reader to consider actual problems of the transport of thermal plasmas with particular attention to the derivation of diffusion and viscosity type transport cross sections stressing the role of resonant charge exchange processes in affecting the diffusion type collision calculation of viscosity type collision integrals a wide range of topics is then discussed including 1 the effect of non equilibrium vibrational distributions on the transport of vibrational energy 2 the role of electronically excited states in the transport properties of thermal plasmas 3 the dependence of transport properties on the multitude of saha equations for multi temperature plasmas and 4 the effect of the magnetic field on transport properties throughout the book worked examples are provided to clarify concepts and mathematical approaches this book is the second of a series of three published by the bari group on fundamental aspects of plasma chemical physics the first book fundamental aspects of plasma chemical physics thermodynamics is dedicated to plasma thermodynamics and the third fundamental aspects of plasma chemical physics kinetics deals with plasma kinetics
