seeking equality compares economic inequality in the united states and canada the north american neighbors have much in common socially politically and economically yet canadians enjoy significantly higher levels of equality and material well being harles explores the values and policy decisions that have influenced these different economic outcomes drawing on the canadian experience he explains why a yawning gap between the very rich and the rest should be cause for civic anxiety in the united states and what can be done about it

the contributors to this study address the question of how political theory is relevant to the construction of new europe and the tie in issues of citizenship social justice and political legitimacy by using techniques of contemporary political theory the book argues that the emergence of new europe poses fundamental questions of value and principle and challenges more established political theories in the process

this book applies concepts from ethics justice and political philosophy to five sets of contemporary energy problems cutting across time economics politics geography and technology in doing so the authors derive two key energy justice principles from modern theories of distributive justice procedural justice and cosmopolitan justice the prohibitive principle states that energy systems must be designed and constructed in such a way that they do not unduly interfere with the ability of people to acquire those basic goods to which they are justly entitled the affirmative principle states that if any of the basic goods to which people are justly entitled can only be secured by means of energy services then in that case there is also a derivative entitlement to the energy services in laying out and employing these principles the book details a long list of current energy injustices ranging from human rights abuses and energy related civil conflict to energy poverty and pervasive and growing negative externalities the book illustrates the significance of energy justice by combining the most up to date data on global energy security and climate change including case studies and examples from the electricity supply transport and heating and cooking sectors with appraisals based on centuries of thought about the meaning of justice in social decisions

the second edition of law and justice while retaining the overall structure and themes of the first edition includes substantial changes in the material and its organization the first third of the materials concerning the rule of law virtues has been reorganized and enriched with additional material addressing statutory interpretation and the doctrine of precedent the materials on procedural justice have been trimmed and moved forward in the text in order to make connections with the substance neutral claims of legal process the materials on substantive justice have been reorganized and supplemented in order to make more vivid the tension between liberalism and its critics nance concludes the text by turning to the question of the duty of obedience to law and the topic is given greater immediacy especially for law students with the addition of material concerning the challenging issue of the lawyer's duties in advising clients who are contemplating acts that would violate the law the second edition retains the pedagogy of the first significant readings from important scholars are coupled with a relatively small number twenty three or minimally edited principal cases the emphasis is on sustained arguments rather than snippets of insight

in the first feminist critique of modern political theory okin shows how the failure to apply theories of justice to the family not only undermines our most cherished democratic values but has led to

law reform is a central goal of lesbian and gay campaigning groups in recent years there have been attempts to secure equal ages of consent for heterosexual and same sex sexual acts to create anti discrimination laws protecting lesbians and gays to allow lesbians and gays to serve in the military and to permit same sex marriages reformers usually try to justify such measures by invoking equality respect for privacy or related arguments this book examines the justifications for law reform which have been put forward to date it suggests that they are not in fact as strong as campaigners have assumed and that a stronger case for legal reforms can be made if the idea of empowerment is used while advancing a new argument for protecting lesbian and gay

rights through law the book is skeptical about how far law is useful in eradicating discriminatory social practices

in a theory of justice and political liberalism rawls set out to prove four major propositions to justify the politics of welfarism namely that the institutions of the modern state are compatible with an idea of justice defined by fairness that political agreement on such an idea is possible that justice as fairness avoids the pitfalls of utilitarianism and its concomitant reliance on majoritarian views and that his view of justice is able to promote stability over the long run in the limits of rawlsian justice political theorist roberto alejandro challenges these assumptions whereas other opponents of rawls have attempted to offer an alternative to his concept of justice as fairness alejandro instead examines rawls from within his own writings testing rawls s assumptions on the basis of those assumptions themselves as a result alejandro shows that rawls s idea of justice as fairness is fraught with inner tensions is exposed to utilitarian dangers and is far from being the coherent model rawls promised
