in recent years large digital platforms have been in the doghouse of antitrust decision makers worldwide antitrust regulators agree urgent intervention is needed interestingly it is the plight of victimized suppliers of merchants app developers publishers platform labourers and the like who are upstream in the value chain that has topped the policy agenda prompting scrutiny of an almost unprecedented intensity

amid such anxieties antitrust and upstream platform power plays asks a somewhat provocative question are upstream platform power plays really competition problems and ones for antitrust at that the obvious answer yes is deceptively simple for a number of reasons first it contradicts contemporary antitrust's single minded focus on consumers which has all but erased supplier exploitation in the brick and mortar economy from the policy's radar second the wider antitrust community remains bitterly divided when it comes to judging platform practices in addition if any consensus could be had it would almost certainly confirm the long standing tenet that antitrust cannot be about supplier welfare as such these paradoxes call for a policy introspection precisely what this book provides the analysis offered in antitrust and upstream platform power plays is altogether normative theoretical and practical normative because it engages in a supplier mindful soul searching exercise which advances our understanding of antitrust's foundations theoretical as it sheds multidisciplinary insights on upstream effects in the platform economy and develops new frameworks for rationalizing them and practical since it takes a deep dive into the complex antitrust machinery while staying attuned to other available levers of public action answering a compelling question with an equally compelling answer this work will appeal to scholars and policymakers worldwide with a particular interest in platform regulation antitrust and powerful digital platforms

this textbook places the relationship between law and economics in its international context explaining the fundamentals of this increasingly important area of teaching and research in an accessible and straightforward manner in presenting the subject alan devlin draws on the neoclassical tradition of economic analysis of law while also showcasing cutting edge developments such as the rise of behavioural economic theories of law key features of this innovative book include case law directives regulations and statistics from eu uk and us jurisdictions are presented clearly and contextualised for law students showing how law and economics theory can be understood in practice succinct end of chapter summaries highlight the essential points in each chapter to focus student learning further reading is provided at the end of each chapter to guide independent research making use of tables and diagrams throughout to facilitate understanding this text provides a comprehensive overview of law and economics that is ideal for those new to the subject and for use as a course text for law and economics modules

the book provides a systematic evaluation of the role played by business in the development of the modern welfare state when and why have employers supported the development of institutions of social insurance that provide benefits to workers for various employment related risks what factors explain the variation in the social policy preferences of employers what is the relative importance of business and labor based organization in the negotiation of a new social policy this book studies these critical questions by examining the role played by german and french producers in eight social policy reforms spanning nearly a century of social policy development the analysis demonstrates that major social policies were adopted by cross class alliances comprising labor based organizations and key sectors of the business community

introduction backgrounds and case references korea microsoft case multiple tyings in the digital media system and the instant messaging system an assessment on the multi tying practice conclusion

an annotated critical guide to the best in worldwide economic thinking of the past three centuries designed as a starting point for the non specialist researcher this bibliography will assist college and high school students in finding the most important works in a particular economic subject most of which are readily available in large public and college libraries this bibliography is divided into five chapters encompassing fourteen sections each section corresponds to a course frequently taught in economics departments and business schools at american universities the search for economics as a science also includes a brief introduction that outlines the development of economics as a scholarly discipline and author and subject indexes
