the concept of this project is based on the premise that neurosurgeons are vital agents in the application of the american health care apparatus they remain the true advocates for patients undergoing surgery for a neurological condition yet the tenets of health care economics health care policy and the business of medicine remain largely debated within the context of politicians policy experts and administrators this textbook will ease that gap it will bring material generally absent from medical curricula into discussion it will make potent features of health care economics policy and the business of practice digestible to clinical neurosurgeons in order to help them better treat their patients the information provided in this text will also provide an excellent foundation for understanding the mechanics of running a neurosurgical practice it simultaneously addresses career progression and opportunity evaluation

the handbook of organizational and managerial innovation places humans their acts practices processes and fantasies at the core of innovation bringing together some of the world's leading thinkers academics and professionals both established and emerging this multidisciplinary book provides a comprehensive picture of the vibrant and engaging field of organizational and managerial innovation the contributors present organizational and managerial innovation as a complex concept underpinned by varied ontological and epistemological traditions and disciplines they reveal that it is something

that exists and occurs at multiple levels of analysis and from multiple zones of experience Ð the experience of managers workers psychologists philosophers and economists this innovative and engaging handbook will be an essential resource for researchers practitioners and students alike with an interest in the role of innovation in organizations

throughout the world the rule against price fixing is competition law s most important and least controversial prohibition yet there is far less consensus than meets the eye on what constitutes price fixing and prevalent understandings conflict with the teachings of oligopoly theory that supposedly underlie modern competition policy competition policy and price fixing provides the needed analytical foundation it offers a fresh in depth exploration of competition law s horizontal agreement requirement presents a systematic analysis of how best to address the problem of coordinated oligopolistic price elevation and compares the resulting direct approach to the orthodox prohibition in doing so louis kaplow elaborates the relevant benefits and costs of potential solutions investigates how coordinated price elevation is best detected in light of the error costs associated with different types of proof and examines appropriate sanctions existing literature devotes remarkably little attention to these key subjects and instead concerns itself with limiting penalties to certain sorts of interfirm communications challenging conventional wisdom kaplow shows how this circumscribed view is less well grounded in the statutes principles and precedents of competition law than is a more direct functional proscription more important by comparison to the communications based prohibition he explains how the direct approach targets situations that involve both greater social harm and less risk of chilling desirable behavior and is also easier to apply

business professionals that struggle to understand key concepts in economics and how they are applied in the field rely on microeconomics the fourth edition makes the material accessible while helping them build their problem solving skills it includes numerous new practice problems and exercises that arm them with a deeper understanding learning by doing exercises explore the theories while boosting overall math skills graphs are included throughout the mathematical

discussions to reinforce the material in addition the balanced approach of rigorous economics gives business professionals a more practical resource

a world list of books in the english language

now in its second edition construction law is the standard work of reference for busy construction law practitioners and it will support lawyers in their contentious and non contentious practices worldwide published in three volumes it is the most comprehensive text on this subject and provides a unique and invaluable comparative multi jurisdictional approach this book has been described by lord justice jackson as a tour de force and by his honour humphrey lloyd qc as seminal and definitive this new edition builds on that strong foundation and has been fully updated to include extensive references to very latest case law as well as changes to statutes and regulations the laws of hong kong and singapore are also now covered in detail in addition to those of england and australia practitioners as well as interested academics and post graduate students will all find this book to be an invaluable guide to the many facets of construction law
