for over forty years the ecg made easy has been regarded as the best introductory guide to the ecg with sales of over half a million copies as well as being translated into more than a dozen languages hailed by the british medical journal as a medical classic it has been a favourite of generations of medical and health care staff who require clear basic knowledge about the ecg this famous book encourages the reader to accept that the ecg is easy to understand and that

its use is just a natural extension of taking the patient's history and performing a physical examination it directs users of the electrocardiogram to straightforward and accurate identification of normal and abnormal ecg patterns a practical and highly informative guide to a difficult subject provides a full understanding of the ecg in the diagnosis and management of abnormal cardiac rhythms emphasises the role of the full 12 lead ecg with realistic reproduction of recordings the unique page size allows presentation of 12 lead ecgs across a single page for clarity a new opening chapter entitled the ecg made very easy distils the bare essentials of using an ecg in clinical practice with minimal theory and maximum practicality the second part explains the theory underpinning the recording of an ecg in order to start basic interpretation of the 12 leads the third part looks at the clinical interpretation of individual ecgs in patients with chest pain breathlessness palpitations and syncope as well as understanding the normal variations in ecgs recorded from healthy subjects

data in the report is based on a survey of 75 academic public and special libraries librarians detail their plans on how they plan to develop their e book collections what they think of e book readers and software and which e book aggregators and publishers appeal to them most and why other issues covered include library production of e books and collection digitization e book collection information literacy efforts use of e books in course reserves and inter library loan e book pricing and inflation issues acquisition sources and strategies for e books and other issues of concern to libraries and book publishers

this book provides models for acquisitions policies and reports on several surveys of faculty and librarian attitudes toward e books it also discusses certain issues in acquiring cataloguing and collection development regarding this important new library resource

these days everyone wants to write a book they want to share their experiences with others teachers want to share their knowledge with their students by writing books writing a book is easily said than done it needs lots of patience time planning command of language etc this book has been authored with all those budding authors in mind it candidly reveals the tools needed to author a book lists out various online resources that can be made use of while authoring a book special emphasis on the use of open source software tools is the feature of this book the author even covers a topic on e book cover creation using power point common traps and pit falls the author should guard against has been clearly stated special emphasis is on self publishing the author's work in this internet age the aspiring author need not go knocking at the doors of publishers but can publish on their own sitting within the comfort zones of their homes using their laptops and internet connection one chapter has been devoted to publishing e book for kindle use of software to convert e book from one format to the other is also explained in a detailed manner various e book formats that can be used for publishing are also enumerated in detail this book is so easy that even a novice can jump into writing books after reading through the chapters search for publisher to publish the authored

book is an arduous and daunting task currently a large number of authors prefer to self publish their work publishing aspects of the authored book are also covered in this book with special emphasis on self publishing self publishing in traditional terms means that the author has published his work himself without the involvement of established publishing house with the advent of online publishing portal i e amazon this difference between self publishing and publisher taking up the task of publishing is getting rather blurred this book really helps a novice to get started with authoring an e book and complete it also
