the transition from hunting and gathering to food production is one of the most significant developments in all of human prehistory since it led to profound changes in population settlement patterns and technology the authors examine the process of early animal domestication in the near east south asia and europe focusing on the cultural context of early animal husbandry masca vol 6 supplement

introduces mineralogy within a casual relevant and accessible approach rather than being dry and dull the book is oriented to the way readers actually learn a new subject this represents an entirely new approach to the study of mineralogy relating mineralogy to everyday life the book introduces large understandable topics first then explains why the little things are important to show how minerals fit into the larger picture emphasizes petrology chemistry and other sciences not normally considered part of mineralogy to place the subject in context presents the history and human aspects of mineralogy with individuals and their contributions that provide an historical context it also provides short concise mineral descriptions a valuable introduction to the study of mineralogy for every reader with an interest in the subject

kohn shows how americans and canadians often referred to each other as members of the same family sharing the same blood and drew upon the common lexicon of anglo saxon rhetoric to undermine old rivalries and underscore shared interests though the predominance of anglo saxonism proved short lived it left a legacy of canadian american goodwill as both nations accepted their shared destiny on the continent kohn argues that this new canadian american understanding fostered the anglo american special relationship that shaped the twentieth century

soft power is the use of attraction and persuasion rather than the use of coercion or force in foreign policy this title features a chapter outlining views on soft hard and smart power and offers a critique of the bush administration s inadequacies it gives the various insights in to both soft power and the concept of power itself

this collection of essays on american history reflects recent scholarship contributors new to this edition include gary nash arthur schlesinger richard p mccormick gerda lerner ellen c dubois vicki l ruiz nathan i huggins john lewis gaddis paul kennedy and kevin p philips edited by gerald n grob and george athan billias

this book analyzes the historical significance of rivaling concepts of world order in 20th century east asia since the arrival of european imperialism in 19th century coupled with its different schools of political philosophy and international law china has struggled to combine ideas on national sovereignty spatiality and hegemony in its quest of either

imitating or replacing european norms of world order by analyzing chinese visions of regional and international order and comparing them with japanese proposals of that era this book discusses in detail the relationship of territoriality and political rule discourses of amity and enmity and finally the role of hegemoniality in the process of imagining a possible postnational world in 21st century east asia and beyond
