explores the relationship between institutions and the maintenance of social order

monograph on sociology with particular reference to social control and political power discusses the most important social theories examines the impact of the socialization process on social structure analyses ideology culture and religion as parts of the control strategy and concludes that adequate social control and more equitable social stratification are the only means to reduce alienation in contemporary society references

a great deal of attention has been devoted to risk research sociologists in general have limited themselves to varying

recognitions of a society at risk and have traced out the paths to disaster the detailed research has yet to be undertaken in risk now available in paperback niklas luhmann develops a theoretical program for such research his premise is that the concept of risk projects essential aspects of our description of the future onto the present risk is conceived as the possibility of triggering unexpected unlikely and detrimental consequences by means of a decision attributable to a decision maker

this pioneering survey evaluates the notions of class and order throughout european history since 1500 after a general theoretical section on the concept of orders and class the book provides discussions and case studies of the nobility the clergy the middle classes and the rural and urban proletariat the studies are drawn from all over europe from early modern castile to late tsarist russia contributors include peter burke stuart woolf a a thompson and joseph bergin

in this volume the archaeological anthropological and radiocarbon data from selected sites of the middle helladic period are integrated to determine if there was variation between individual burials groupings and cemeteries and to reconstruct change through time this work was done for selective argive sites namely lerna asine and aspis

derek phillips presents a strong case for the importance of normative theories about the just social organization of society most sociologists urge the avoidance of value judgments but professor phillips argues for a notion of a just social order that reflects a twin concern with explanatory and normative thinking originally published in 1986 the princeton legacy library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of princeton university press these editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions the goal of the princeton legacy library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by princeton university press since its founding in 1905

frequently overlooked in the search of knowing and acting wisely are some important philosophical and cultural ideas and questions the kpim of social order boldly captures such ideas and questions for awareness through critical thinking the current volume in the kpim book series makes the point that for a systematic analysis and significance of social order to be attained we need to ask what is the kpim or central core of social order of things where does the deepest layer notion symbolism reality and application of social order programs human rights institutions communities diplomacy uprising social asset social power policy action inter culturalism global forces and all else lie how can we reach and understand the innermost part of social order in the modern world by gathering articles from seasoned experienced and emerged scholars from various backgrounds the book explores deep rooted questions touching on african context and related societies the refreshing

perspectives analyses deep reflections vigorous arguments and representations shown by the essays are distinctive and have been referred to as a comprehensive reader in the season of inquiry meaning and significance of social order in the contemporary time this is a book no one should ignore students scholars researchers universities colleges educationists institutions policy makers governments legislatures agencies labour unions civil society organizations occupy movements religious groups entrepreneurs and the general public will find this book as an asset and a must read the kpim of social order is therefore written out of the critical need to fill the gap for a decisive knowledge society in the modern world

however unlike conventional legal theory this volume seeks to provide an answer in terms of a general social theory a methodology that answers this question in a manner applicable not only to law but also to all the other complex and highly differentiated systems within modern society such as politics the economy religion the media and education this truly sociological approach offers profound insights into the relationships between law and all of these other social systems

charles horton cooley s account of human beings their behavior and how they organize themselves has been praised for its originality and remains an underappreciated and much cited classic of sociology human nature and the social order is a logically composed book which straddles and to a degree transcends the boundaries between philosophy psychology and sociology cooley wished to clarify the behavior of human beings how they come to interact and socialize with one another and how they arrive at a definition of themselves that is in harmony with their own well being and that of others later in the book cooley discusses qualities which have been promoted or felt as necessary for humans in civilized society good conscientious and beneficent leadership the possession of a moral compass and conscience and the excellent values of freedom receive their own discussions with positive and negative elements comprising the well rounded analyses with leadership cooley is primarily concerned with the qualities that see a good leader promoted to the higher echelons of the social order but also the fact that his best qualities may detrimentally eclipse the rest of his personality cooley also examines human nature when it becomes degenerate reflecting on whether such degeneracy is inherited and to what extent it can become accepted among groups of people what arouses hostility between people and their social orders where this function of the mind originated and the use of fear in causing hostility are matters cooley also takes interest in this printing of human nature and the social order is adapted from the revised and updated 1922 edition and is inclusive of the author s original notes and references appended at the close of each chapter
