suggesting that the united states dominant form of literacy is contingent and historical not permanent and absolute this book asserts that when a society changes its definition of literacy it also changes its models of mind and its models for teaching english the book challenges the assumption that the public schools are a failure arguing instead that public school teachers have met every literacy challenge put to them by parents and government the book introduces a new standard of literacy translation critical literacy and discusses how the new standard affects the english and language arts curriculum the tools and methods of learning and the conceptualization of assessment of knowledge chapters in the book are 1 shifting social needs from clocks to thermostats 2 from oracy or face to face literacy to signature literacy 1660 1776 3 signature and recording literacy 1776 1864 4 recitation and report literacy 1864 1916 5 a literacy of decoding defining and analyzing 1916 1983 6 the transition to a new standard of literacy 1960 1983 7 the event based features of translation critical literacy 8 embodied knowledge self fashioning and agency 9 distributed knowledge the technology of translation critical literacy 10 negotiated and situated knowledge translating among sign systems 11 negotiated and situated knowledge translating among speech events 12 negotiated situated and embodied knowledge translating among the modes 13 negotiated and situated knowledge translating between stances 14 style and worldviews in literature and public discourse and 15 conclusion i think it happened again rs

the author reaches hundreds of thousands nationwide via her radio show anne bruce life coach on cnn radio and thousands of people a year through her speaking engagements the strategies and real world techniques have been tested over the past 17 years

in the hundreds of seminars and workshops the author has conducted around the world

coaching and mentoring are popular approaches to developing people and enhancing organizational performance yet material that will help coaches and mentors to improve their own practice is still hard to come by this title in the gower activity series will be welcomed by anyone looking for guidance the authors begin by explaining how to set up different types of mentoring programmes the activities that follow cover every aspect of the subject from assessing your own mentoring style to learning to let go there are exercises to enhance skills and others concerned with understanding the processes involved some are designed to be run in groups some as one to one sessions and some as self study as with all gower training manuals detailed instructions for each activity are supplied together with ready to copy masters of any supporting items the material in this manual is firmly rooted in the realities of coaching and mentoring and there is even an index that matches the activities to the problems most commonly encountered this is a resource that can be recommended for its immediate relevance to managers trainers coaches and mentors alike in any type of organization

an acclaimed hypertext novelist s reflections on art and technology nonlinearity and the creative process

in the tradition of barbara ehrenreich s nickel and dimed and studs terkel s working the mind at work is an illuminating reassessment of american labor testimonials to physical work have always celebrated the dignity the economic and moral value even the nobility of blue collar labor but rarely the thought required to get the job done right the lightning fast organization and mental calculations of the waitress the complex spatial mathematics of the carpenter the aesthetic and intellectual dexterity of the hair stylist our failure to acknowledge or respect these qualities has undermined a large portion of america s working population in the mind at work award winning writer mike rose sets the record straight by taking a long hard look at the intellectual demands of common work integrating personal stories of his own working class family with interviews vivid snapshots of people on the job and current research in social science and cognitive psychology rose draws a brilliantly original portrait of america at work as he probes the countless decisions computations and subtle judgments made every day by welders and plumbers waitresses and electricians rose redefines the nature of important work and overturns the hand brain dichotomy that blinds us to the real contributions of working people
