a textbook history of the world from earliest times to today

university press returns with another short and captivating story a brief history of the world any summary of world history is bound to be laughably crude and incomplete even multi volume or semester long attempts to distill the innumerable events of our watery planet fail to capture the fullness and depth of the story but this is no reason to abandon the pursuit of historical knowledge history is a story it grants us access to the laboratory of human experience it helps us understand people societies and our connections to them it contributes to empathy and moral understanding history teaches us how the world works this world history book is shorter than most and therefore it is even cruder and more incomplete than most if you have the time to read a multi volume history of the world we recommend that you do but in the meantime this short book tells an abbreviated version of the unlikely story of the forces events and people that have changed the world a version that you can read in about an hour

world history explores the human past around the globe to help us understand the world we live in today it seeks to identify how major forces have developed over time like patterns of migration or world trade it explores the cultures and political institutions of different regions to help explain commonalities and differences world history builds on a growing amount of historical scholarship some of which has truly altered the picture of the past it involves a rich array of stories and examples of human variety intriguing in themselves it helps develop skills that are vital not just to the history classroom but to effective operation in a global society skills like comparing different societies appreciating various viewpoints identifying big changes and continuities in the human experience always however it uses the past as a prologue to the present world historians argue that no one society past or present can be understood without reference to other societies and to larger global forces they argue even more vigorously that the present which clearly involves relationships that embrace the whole world cannot be grasped without a sense of the global historical record from its first edition world civilizations the global experience has aimed at capturing a truly global approach by discussing and comparing major societies and focusing on their interactions the goal is to present a clear factual framework while stimulating analysis about global contacts regional patterns and the whole process of change and continuity on a world stage this kind of world history focused on the development over time of the forces that shape the world today helps students make sense of the present and prepare to meet the challenges of the future it is hard to imagine a more important topic embracing the whole world's history obviously requires selectivity and explicit points of emphasis this text gains coherence through decisions about time about place and about topic in all three cases the book encourages analysis relating facts to vital issues of interpretation through analysis and interpretation students become active engaged learners rather than serving as passive vessels for torrents of historical facts underpinning analysis the issues of time place and topic are the three keys to an intelligible global past

now updated your personal tour guide to the history of the world want to know more about global history this concise guide explains in clear detail all the major players and events that have made the world what it is today covering the entirety of human history this comprehensive resource highlights important developments in everything from religion and science to art and war giving you an understanding of how the 21st century world came to be begin to connect with the past label the eras as you meet the neanderthals home in on homer raise atlantis and preserve pharaohs find strength in numbers trace the growth from ancient civilizations to today's global community and discover what makes societies succeed or fail discover the impact of thought explore the rise of religion the roots of philosophy and the advance of science and how our feelings and beliefs continually redefined us know the global consequences of war ride with the greeks and the romans arm yourself with the cavalry dig the trenches and follow the paths humans took to wage modern war meet the movers and shakers from great leaders and courageous revolutionaries to ruthless tyrants and unsung heroes examine significant events of the 21st century

from 9 11 and the afghanistan and iraq wars to climate change hurricane katrina and the economic rise of china india and brazil open the book and find a detailed overview of history the development of the world s religions reviews of essential historical documents from the bible to the bill of rights the invention of writing and art scientific developments that revolutionized the world capsule biographies of people who changed history and a few who were changed by it ten unforgettable dates in world history

a textbook history of the world from earliest times to today

technology a world history offers a brilliant history of invention around the globe historian daniel r headrick ranges from the stone age and the beginnings of agriculture to the industrial revolution and the electronic revolution of the recent past in tracing the growing power of humans over nature through increasingly powerful innovations he compares the evolution of technology in different parts of the world providing a much broader account than is found in other histories of technology
