despite the important methodological critiques of the mainstream offered by heterodox economics the dominant research method taught in heterodox programmes remains econometrics this compelling handbook provides a comprehensive introduction to a range of alternative research methods invaluable for analysing the data prominent in heterodox studies providing a solid basis for a mixed methods approach to economic investigations the expertly crafted contributions are split into three distinct sections philosophical foundation and research strategy research methods and data collection and applications introductions to a host of invaluable methods such as survey historical ethnographic experimental and mixed approaches together with factor cluster complex and social network analytics are complemented by descriptions of applications in practice practical and expansive this handbook is highly pertinent for students and scholars of economics

particularly those dedicated to heterodox approaches as it provides a solid reference for mixed methods not available in mainstream economics research methods courses

this volume in the routledge global human resource management series is dedicated to analyzing the process of trust development between managers and subordinates in different countries of the main cultures of the world behaviors and trust are linked in a process that can reinforce or diminish the trust between the two parties this book examines that process in an array of countries contextualizing each setting through a brief historical institutional and cultural overview addressing the dominant hr practices and the main local leadership styles of each country it draws upon an extensive country by country data set of leader subordinate trust to analyze the universal and culturally specific elements of this process with its rigorous research insightful analysis and consistent presentation this book will help readers to systematically compare the process across countries to draw conclusions and analyze hr implications this book is intended as a text for graduate courses in cross cultural business international human resource management and cross cultural organisational psychology in addition to a student market the text will also be of interest to the reflective practitioner operating in different cultural settings who requires a contextual knowledge of key aspects of workplace relations management style and host country situation

to date the study of communicated explanations has been at best unsystematic there has been little recognition that many if not most explanations are eventually delivered to a hearer or hearers these potential audiences constrain the way the explanation is ultimately shaped similarly researchers have devoted themselves to the study of accounts for the most part without an accompanying interest in the fundamental processes of event comprehension this volume is devoted to bridging the gap between these two traditions

trb s airport cooperative research program acrp report 23 airport passenger related processing rates guidebook provides guidance on how to collect accurate passenger related processing data for evaluating facility requirements to promote efficient and cost effective airport terminal design

this practical text combines social research methods with coverage of statistical analysis to help students develop the applied research skills needed for future careers in public and private organizations while also delivering a solid foundation for those going on to graduate school throughout the book the author offers a real world example and then breaks it down into a decision tree which helps lead students to a possible statistical decision rather than starting with the statistic this text gives students a toolbox of the most common and in demand skills and demonstrates how those skills can be used to make the best research decisions the book takes students through the entire real world research process from the formation of a research topic to measurement and sampling to methods for gathering information and making sense of the data and finally presenting to a non academic audience in a way that gets the job done resources for instructors and students are available on an accompanying website for the book

this is an in depth study 64 pages of the us corporate perspective on the readiness of new entrants into the u s workforce by level of educational attainment the study includes results from both an in depth survey conducted in 2006 and interviews with hr and other senior executives in addition a workforce readiness report card is included which provides a summary of the basic knowledge and applied skills that are either deficient or excellent in those areas that employer respondents rate as very important table of contents executive summary definition of terms the findings part 1 determining the current basic knowledge and applied skill requirements for workforce readiness part 2 assessing the recent entrants preparation in terms of basic knowledge and applied skills part 3 report card on workforce readiness part 4 considering remedial basic skills training part 5 defining future workforce readiness increasingly important skills and emerging context areas part 6 assuming responsibility for workforce readiness actions
