analysis and portfolio management the publication is a forum for statistical and quantitative analyses of issues in security analysis portfolio management options futures and other related issues the objective is to promote interaction between academic research in finance economics and accounting and applied research in the financial community

a history of corporate financial reporting provides an understanding of the procedures and practices which constitute corporate financial reporting in Britain at different points of time and how and why those practices changed and became what they are now its particular focus is the external financial reporting practices of joint stock companies this is worth knowing about given the widely held view that Britain i pioneered modern financial reporting and ii played a primary role in the development of both capital markets and professional accountancy the book makes use of a principal and agent framework to study accounting's past but one where the failure of managers always to supply the information that users desire is given full recognition it is shown that corporate financial reporting did not develop into its current state in a straightforward and orderly fashion each era produces different environmental conditions and imposes new demands on accounting a proper understanding of accounting developments therefore requires a careful examination of the interrelationship between accountants and accounting techniques on the one hand and on the other the social and economic context within which changes took place the book's corporate coverage starts with the legendary East India Company created in 1600 and continues through the heyday of the statutory trading companies founded to build Britain's canals commencing in the 1770s and railways commencing c 1829 to focus principally on the limited liability company fashioned by the Joint Stock Companies Act 1844 and the Limited Liability Act 1855 the story terminates in 2005 when listed companies were required to prepare their consolidated accounts in accordance with international financial reporting standards thus signalling the effective end of British accounting

the second edition of the book encompasses two new chapters strategic cost management and business ethics a strategic financial management instrument the book being an augmented version of the previous edition equips the young managers with the fundamentals and basics of strategic management and financial management in a cogent manner the text now provides a better orientation to the students on the topics like corporate restructuring divestitures acquisitions and mergers in the global context with the help of examples and caselets the book has been revised keeping in view the requirements of postgraduate students of management and the students pursuing professional courses such as CA MFC and CS in addition professionals working in the corporate sector may also find the book beneficial to integrate the financial management functions into business strategy and financial operations distinctive features model question papers have been appended at the end of the book better justification of topics by merging the contents wherever required theory supported with caselets inspired from

global as well as indian context
