from the beginning of time humans have been driven by both a fear of the unknown and a curiosity to know we have always yearned to know what lies ahead whether threat or safety scarcity or abundance throughout human history our forebears tried to create certainty in the unknown by seeking to influence outcomes with sacrifices to gods preparing for the unexpected with advice from oracles and by reading the stars through astrology as scientific methods improve and computer technology develops we become ever more confident of our capacity to predict and quantify the future by accumulating and interpreting patterns from the past yet the truth is there is still no certainty to be had in this very short introduction jennifer gidley considers some of our most burning questions what is the future is the future a time yet to come or is it a utopian place does the future have a history is there only one future or are there many possible futures she asks if the future can ever be truly predicted or if we create our own futures both hoped for and feared by our thoughts feelings and actions and concludes by analysing how we can learn to study the future about the series the very short introductions series from oxford university press contains hundreds of titles in almost every subject area these pocket sized books are the perfect way to get ahead in a new subject quickly our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable

in a world where an increasing amount of communication takes place in english among non native speakers this study presents data from email exchanges to provide the first examination of sociolinguistic competence and the acquisition of native like variability in an english as a lingua franca elf context the analysis of a range of linguistic variables future tense relative pronoun choice complementizer use and adverbial placement in the online interactions of swiss speakers with german french and italian mother tongues allows the reader to gain a greater understanding of which linguistic features are source language related and which are learning related this book will be a valuable resource for postgraduates and researchers interested in language variation and change elf and second language acquisition as well as for undergraduates wanting guidance on different ways of examining sociolinguistic variables

this book brings together an international roster of renowned scholars from disciplines including philosophy political theory intellectual history and

literary studies to address the conceptual foundations of the humanities and the question of their future what notions of the future of the human and of finitude underlie recurring anxieties about the humanities in our current geopolitical situation how can we think about the unpredictable and unthought dimensions of praxis implicit in the very notion of futurity the essays here argue that the uncertainty of the future represents both an opportunity for critical engagement and a matrix for invention broadly conceived the notion of invention or cultural poiesis questions the key assumptions and tasks of a whole range of practices in the humanities beginning with critique artistic practices and intellectual inquiry and ending with technology emancipatory politics and ethics the essays discuss a wide range of key figures e g deleuze freud lacan foucault kristeva irigaray problems e g becoming kinship and the foreign disposable populations within a global political economy queerness and the death drive the parapoetic electronic textuality invention and accountability political and social reform in latin america disciplines and methodologies philosophy art and art history visuality political theory criticism and critique psychoanalysis gender analysis architecture literature art the volume should be required reading for all who feel a deep commitment to the humanities its practices and its future

this edited book brings together 5 general themes of irritable bowel syndrome ibs presenting the latest information on the epidemiology pathophysiology diagnosis treatment and a number of current topics ibs is a functional bowel disorder associated with chronic abdominal pain and altered bowel habits without identifiable organic etiology however to date there is no known agreed upon disease mechanism this book offers insights into the various factors potentially contributing to the symptoms and provides data on the various globally recognized strategies including novel pharmacological treatment agents it also discusses geographical differences and region specific factors such as medical systems life styles dietary habits gut microbiota social stress and genetics the book promotes further exploration of the disease by offering a comprehensive bibliography for each chapter it is a valuable and thought provoking resource for clinicians researchers residents and pis who are interested in the latest basic and clinical research on ibs

china is home to a fifth of the worlds inhabitants for the last several decades this huge population has been in flux fertility has fallen sharply mortality has declined and massive rural to urban migration is taking place the state has played a direct role in these changes seeing population control as an important part of its intention to modernize the country in this insightful new work nancy e riley argues that chinas population policies and outcomes are not simply imposed by the state onto an unresponsive citizenry but have arisen from the social organization of china over the past sixty years riley demonstrates how chinas population and population policy are intertwined and interact with other social and economic features riley also examines the

unintended consequences of state directives including the extraordinary number of missing girls the rapid aging of the population and an increase in inequality particularly between rural and urban residents ultimately chinas demographic story has to be understood as a complex multi pieced phenomenon this book will be essential reading for researchers and students of china and social demography as well as non specialists interested in the changing nature of chinas population

wildlife tourism of which game farms form an important part is one of south africa s biggest tourism products with more game conserved and land under protection than all provincial and national parks combined therefore wildlife tourism especially hunting is a very important source of income for the country and contributes to job creation in rural provinces like limpopo northern cape north west and eastern cape this book places emphasis on hunting trophy and biltong game farm development for tourism purposes game management game farming and the law and important future trends the book is aimed at game farm owners hunters hunting outfitters professional hunters and students in search of knowledge concerning game farm and hunting tourism
