probably the most awesome peaks in the world certainly the highest are those of the himalaya even the name from the sanskrit words for abode of the snows speaks of their remoteness crowning the himalaya and the linked karakoram range are fourteen peaks above 8000 metres in height the sivalaya or abode of the gods in this book louis baume presents the only comprehensive chronology of journeys expeditions and ascents involving these highest peaks and an extensive bibliography of books relating to them book cover

the year 2000 is the fiftieth anniversary of the ascent of annapurna the first of the 8000 meter peaks to be climbed in the decade

following that first ascent in 1950 all but one of the world's fourteen highest mountains were climbed the period from 1950 to 1960 can be considered the golden age for high altitude climbing only shisha pangma remained unclimbed until 1964 when a chinese party led by hsu ching reached the summit this book brings together the stories behind the discovery exploration and first successful ascents of each of the fourteen highest peaks as well as accounts of the most important attempts and ascents that followed many of these stories illustrate how modern technology has enabled mountaineers to climb the previously unscaled peaks while still demonstrating the importance of the human element book jacket title summary field provided by blackwell north america inc all rights reserved

in this book renowned british mountaineer alan hinkes relates his experiences of climbing all 14 of the peaks over 8000m the world's highest mountains alongside stunning photography he describes his expeditions many as alpine style ascents capturing the beauty harshness and danger of these mountains

a thrilling memoir of the spectacular high altitude mountaineering achievements of andrew lock the only australian to have summited all fourteen 8000 metre peaks in the world including mount everest twice we learn why does he do it why does anyone take on such a challenge knowing how easily they might be killed andrew lock gives us a gripping account of his death defying ascents and explains his passion for climbing in small teams or solo without sherpas or bottled oxygen his story is one of extraordinary passion self motivation perseverance and resilience as he leads us through his sixteen year odyssey to achieve the grand slam of himalayan mountaineering we are taken through the victories the near misses and the tragedies the intense human drama of the expeditions infuses summit 8000 funny fierce and always fascinating stories about survival climbing rivalries and mountaineering politics the remote and stunning landscapes and cultures that andrew encounters on his journeys add rich texture to his tale culminating in his 2014 trip to everest where he was witness to the deadliest avalanche in the peak's history

covering the ancient world to the space age this book recounts the stories of famous explorers and of many less well known expeditions background information is provided on each phase of exploration the equipment and technology available and the people and places discovered

this book is a new volume in the journey series of illustrated books produced by camerapix

few areas of human endeavor and adventure have such an extensive literature as does mountaineering perhaps because the

activity itself is so diverse ranging from gymnastic feats of modern rock climbers through alpinism to himalayan conquests and exploration even before edward whymper climbed the matterhorn in 1865 and wrote the celebrated scrambles in the alps mountaineers had felt compelled to record their adventures and their sense of wonder at the mountain world in recent years the literature has expanded considerably to account for the phenomenal growth of mountain activities expeditions are now commonplace and the great mountain ranges are no longer beyond the reach of the average climber this extensive bibliography describes works on mountaineering published in the english language since 1744 but it's far more than a dry catalog of books as author neate gives notes which help the reader assess a book's reliability and significance an indispensable reference for the active climber would be explorer and bibliophile alike
