this comprehensive book examines the crucial connections between national identity territory and scale providing a powerful theoretical and organizational framework the volume identifies four ways in which scale operates dynamically in the formation and maintenance of national identity consolidating identities considers the strategies necessary to keep all parts within the fold through educational systems minority policies immigration controls and other forms of traditional state power magnifying identities examines the consequences of shifting the scale up and unifying territories that have a sense of a larger supranational identity connecting identities assesses how nations can bridge physical distance water barriers or sovereign boundaries fragmenting identities looks into the disintegration of national identities and those forces that have the potential to unravel a nation or block its effective formation nationalism and national identity remain critical flashpoints in the geopolitical order as we have seen in the development of a quasi independent kurdistan in northern iraq the resurgence of native american identities in response to the dakota access pipeline and the chinese crackdown on its minority regions offering a rich set of case studies from around the world this essential book affirms the global importance of national identity and scale

national identity plays an increasingly important role in western liberal democracies thus immigration and diversity are often considered a threat to national identities and restrictions on immigration and nation building policies are being implemented in response specifically it has been suggested that diversity drives down social cohesion and thus the ties that bind people together in stable democratic welfare states national identity and social cohesion considers the role of national identity in contemporary societies and in particular its significance for social cohesion national identity impacts perceptions of belongingness which again impact considerations of deservingness perceptions of deservingness in turn play an important role for solidarity within the framework of a welfare state furthermore immigration and the associated questions of belongingness have been a driver in processes of political polarization in some cases political leaders frame minorities as a threat to the nation state warranting a departure from liberal democratic institutions this book considers questions such as what role does national identity more precisely play for political polarization do national identities mediate moderate the impact of diversity on social cohesion including trust and solidarity has identity politics contributed to a politics of resentment and can more inclusive national identities serve to diminish polarization in the book these and other questions about the relation between national identity belonging and social cohesion are considered by a number of prominent scholars in the field

the millennium dome braveheart and rolls royce cars how do cultural icons reproduce and transform a sense of national identity how does national identity vary across time and space how is it contested and what has been the impact of globalization upon national identity and culture this book examines how national identity is represented performed spatialized and materialized through popular culture and in everyday life national identity is revealed to be inherent in the things we often take for granted from landscapes and eating habits to tourism cinema and music our specific experience of car ownership and motoring can enhance a sense of belonging whilst hollywood blockbusters and national exhibitions provide contexts for the ongoing and often contested process of national identity formation these and a wealth of other cultural forms and practices are explored with examples drawn from scotland the uk as a whole india and mauritius this book addresses the considerable neglect of popular cultures in recent studies of nationalism and contributes to debates on the relationship between high and low culture

this volume analyzes changing relationships between religion and national identity in the course of european integration examining elite discourse media debates and public opinions across europe over a decade it explores how accelerated european integration and eastern enlargement have affected religious markers of collective identity

the nation state is challenged all over the world today regional movements the reunification of separate territorial parts the differentiation of formerly homogenous ethnic identities the sequels of war and the country specific historical legacies present many different challenges for national identities and nationhood the contributions in this volume constitute an attempt to put the many facets of the contemporary european experience into perspective book jacket

this book brings together papers by leading sociologists on the problem of nation and national identity in south asia the book makes important conceptual distinctions between nation state

territory and region it also attempts to understand the rise of the state and civil society over time it includes papers on gender and caste in the nation state and also includes papers on national identity in sri lanka and pakistan

national identity is often cited as a contributing factor to many of the world s worst trouble spots for example the troubles in israel afghanistan and bangladesh this book addresses the issue of how national identity differs from racial ethnic and regional identity

investigates the concept of national identity based on twenty years of empirical evidence

what is national identity what are the main challenges posed to national identity by the strengthening of regional identities and the growth of cultural diversity how is right wing nationalism connected to the desire to preserve a traditional image of national identity can we forge a new kind of national identity that responds to the challenges of globalization and other deep seated changes in this important new book montserrat guibernau answers these and other compelling questions about the future of national identity for guibernau the nation states traditional project to unify its otherwise diverse population by generating a shared sense of national identity among them was always contested and was accomplished with various degrees of success in europe and north america such processes involved the cultural and linguistic homogenization of an otherwise diverse citizenry and were pursued by different means according to the specific contexts within which they were applied at present the impact of strong structural socio political and economic transformations has resulted in greater challenges being posed to the idea that all citizens of a state should share a homogeneous national identity diversity is increasing and plans for further european integration contain the potential to generate significant tensions casting greater doubt on the classical concept of national identity as a result we are faced with a set of new dilemmas concerning the way in which national identity is constructed and defined the book offers a theoretical as well as a comparative approach with case studies involving austria britain canada and spain as well as the european union and the united states of america the identity of nations will be essential reading for advanced students and professional scholars in sociology politics and international relations

cover title copyright contents list of figures list of tables list of abbreviations preface acknowledgements 1 modern chinese nation nationalism national identity and sport 2 the origin and development of the national games in the late qing dynasty and the republic of china 1910 1948 3 governance of sport and the national games in the prc 1949 1979 4 the national games and china s olympic strategy in the post 1980s 5 the national games and national identity in china appendices index

what does australia s constitution say about national identity a conventional answer might be not much yet recent constitutional controversies raise issues about the recognition of first peoples the place of migrants and dual citizens the right to free speech the nature of our democracy and our continuing connection to the british monarchy these are constitutional questions but they are also questions about who we are as a nation this edited collection brings together legal historical and political science scholarship these diverse perspectives reveal a wealth of connections between the australian constitution and australia s national identity

this volume explores national identity discussing essentialist and postmodernist views and suggests it as an ideal type concept for analysis it includes case studies on various countries and examines factors affecting national identity such as governance economic crises and social changes as well as immigrant experiences

employing a previously neglected perspective on the construction and communication of national identity this book addresses the lived reality of these identities and explores the level of situated talk and interaction in which they are actually expressed and used

a good political community is one whose citizens are actively engaged in deciding their common future together bound together by ties of national solidarity they discover and implement principles of justice that all can share and in doing so they respect the separate identities of minority groups within the community in the essays collected in this book david miller shows that such an ideal is not only desirable but feasible he explains how active citizenship on the republican model differs from liberal citizenship and why it serves disadvantaged groups better than currently fashionable forms of identity politics by deliberating freely with one another citizens can reach decisions on matters of public policy that are both rational and fair he couples this with a robust defence of the principle of nationality arguing that a shared national identity is necessary to motivate citizens to work together in the name of justice attempts to create transnational forms of citizenship in europe and elsewhere are therefore misguided he shows that the principle of nationality can accommodate the demands of minority nations and does not lead to a secessionist free for all and finally he demonstrates that national self determination need not be achieved at the expense of global justice this is a powerful statement from a leading political theorist that not only extends our understanding of citizenship nationality and deliberative democracy but engages with current political debates about identity politics minority nationalisms and european integration

addressing recent scholarly interest in national identity this book examines the social practices that give historical meaning cohesion and uniqueness to national communities it reveals the diversity of the themes practices and symbols used to encourage self identification and communality and explores techniques ranging from the exaltation of heroes to the evocation of landscape

this compendium offers a textured historical and comparative examination of the significance of locality or place and the role of urban representations and spatial practices in defining national identities drawing upon a wide range of disciplines from literature to architecture and planning sociology and history these essays problematize the dynamic between the local and the national the cultural and the material revealing the complex interplay of social forces by which place is constituted and contributes to the social construction of national identity in asia latin america and the united states these essays explore the dialogue between past and present local and national identities in the making of modern places contributions range from an assessment of historical discourses on the relationship between modernity and heritage in turn of the century suzhou to the social construction of san antonio s market square as a contested presencing of the city s mexican past case studies of the socio spatial restructuring of penang and jakarta show how place making from above by modernizing states is articulated with a claims making

politics of class and ethnic difference from below an examination of nineteenth century central america reveals a case of local grassroots formation not only of national identity but national institutions finally a close examination of latin american literature at the end of the nineteenth century reveals the importance of a fantastic reversal of balzac s dystopian vision of parisian cosmo politanism in defining the place of latin america and the possibilities of importing urban modernity

modern human beings are socialized to take the existence of ethnic and national identities as given and largely unproblematic very few individuals would question the apparent normality of this division into nations and ethnic groups however the intensity of this widespread feeling hides the degree of its historical novelty this book explores the ideological and institutional underpinnings as well as the political implications of this powerful modern belief system this is achieved through subtle theoretical and thorough empirical analysis both of which draw critically on the leading approaches in the field
