this book argues that although secular and religious perspectives on disasters have often conflicted today there are grounds for believing that the world's major faiths have much to contribute to the processes of post disaster recovery and future disaster risk reduction drr it seeks to demonstrate how contemporary dialogues between theologians disaster scholars and policymakers are defining new ways of working together these explore how the resources of religious communities e.g buildings human resources and finance may be used to foster successful policies of drr particularly in the aftermath of earthquakes and volcanic eruptions musing on the relationships between religion and disasters has occurred for millennia and has affected many societies worldwide in societies where the world's major religions buddhism christianity hinduism islam judaism and shinto have been and remain dominant attempting to find supernatural explanations for disasters has occurred throughout history and there have been many theologies seeking to explain why people suffer losses it is argued that developments both within these traditions of faith and in how disasters are understood by the hazard research community of researchers and planners have allowed a new *modus vivendi* to emerge which emphasises both a recognition of religious worldviews by academic writers and disaster planners on the one hand and a desire by people of faith and their leaders to be more fully committed to the goals of drr the book will appeal to those who are interested in the interface between disasters and theology across the principal religions of the world this includes researchers and students in geology geography theology and religious studies it will also be useful for specialist academic audience and the educated general reader

the great thorpe railway disaster of 1874 is the third title from norwich writer and biographer phyllida scrivens who lives less than half a mile from the site of the fatal collision at norwich station on 10 september 1874 a momentary misunderstanding between the night inspector and young telegraph clerk resulted in an inevitable head on collision the residents of the picturesque riverside village of thorpe next norwich were shocked by a deafening peal of thunder sending them running through the driving rain towards a scene of destruction surgeons were summoned from the city as the dead dying and injured were taken to a near by inn and boatyard every class of victorian society was travelling that night including ex soldiers landowners clergymen doctors seamstresses saddlers domestic servants and a beautiful heiress for many months local and national newspapers followed the story publishing details of subsequent deaths manslaughter trial and outcomes of record breaking compensation claims the board of trade inquiry concluded that it was the

most serious collision between trains meeting one another on a single line of rails that has yet been experienced in this country using extensive research non fiction narrative informed speculation and dramatised events phyllida scrivens pays tribute to the 28 men women and children who died revealing the personal stories behind the names hitherto only recorded as a list

the major challenges of the 21st century faced by human beings are how to achieve water security food security energy security and environmental security owing to enhanced natural anthropogenic disasters worldwide these challenges become much more complicated and daunting especially for developing countries therefore it is important to highlight the risk of different disasters as well as the modern tools and techniques for minimizing disaster incidence and losses disaster management being highly multidisciplinary in nature a comprehensive book dealing with different aspects of disaster management and encompassing important disasters faced by humankind is presently not available this book is an attempt to fulfill this gap it provides clear comprehensive and up to date information about different facets of disaster management along with salient case studies the book highlights the current status of disaster management focusing on developing nations discusses vital issues such as climate change and sustainable development modern approaches and tools techniques and the challenges of and future r d needs for sustainable disaster management

men of granite is a thorough history of new hampshire combat troops in the years before and during the civil war focusing on the day to day experiences of the common soldier and his reasons for taking up the fight against the confederacy shaffer has mined myriad primary sources to draw together the experiences of all of the state s regiments and units into this single cohesive volume further enhanced by twenty illustrations and twelve maps shaffer s detailed survey reinserts the story of new hampshire forces into the annals of civil war history and through frequent quotation of soldiers own accounts gives voice to the motivations and daily experiences of determined union forces from the granite state book jacket

ephraim katz s the film encyclopedia is the most comprehensive single volume encyclopedia on film and is considered the undisputed bible of the film industry completely revised and updated this seventh edition features more than 7 500 a z entries on the artistic technical

and commercial aspects of moviemaking including directors producers actors screenwriters and cinematographers styles genres and schools of filmmaking motion picture studios and film centers film related organizations and events industry jargon and technical terms inventions inventors and equipment plus comprehensive listings of academy award winning films and artists top grossing films and much more

the imagining of disaster has intensified across a wide range of media entertainment formats and genres in recent years and themes of disaster are regularly deployed in fictional films television drama series drama documentaries comic books and video games this being the case it is therefore vital that film and media scholars pay attention to the ways in which disaster is presented to us to the figurative strategies employed to the representational history of disaster in media to the metaphorical resonances of disaster themes and even to the ways in which entertainment media texts might be understood as part of a broader discourse of disaster within certain historical and cultural contexts dramatising disaster presents new and innovative research from both early career and more established academics some of the chapters in this edited collection are based upon papers originally presented at a highly successful conference study day held by the school of film television and media at the university of east anglia in 2011 while others are specifically solicited contributions distinct from previous more particularised film and media studies in this area this edited collection is focused not upon a specific disaster or specific disaster context but upon the wider topic of disaster in popular culture

this book gathers the latest advances innovations and applications in built environment as presented by international researchers at the 15th built environment conference held in durban south africa on september 27 28 2021 and organized by the association of schools of construction of southern africa asocsa the overarching theme of the conference was construction in 5d deconstruction digitalization disruption disaster development with contributions focusing on current trends innovations opportunities and challenges policies and procedures legislation and regulations practices and case studies in both the public and private sectors the volume will contribute to the existing body of knowledge relative to the science and practice of construction not only in south africa but wherever the products of construction are produced even in these new challenging times of fear and uncertainty

understanding weather and climate
