providing a detailed and comparative assessment of the humanitarian responses to a series of  
major disasters in asia over the past two decades including massive earthquakes volcanic  
eruptions and tsunamis this book explores complex and changing understandings and practices  
of relief recovery and reconstruction these critical investigations raise questions about the  
position and responsibilities of a growing range of stakeholders and provide in depth explorations  
of the ways in which local communities are transformed on multiple levels not only by the impact  
of disaster events but also by the experiences of rebuilding this timely volume highlights how the  
experiences of asia can contribute towards post disaster responses globally to safeguard future  
communities and reduce vulnerabilities this is a valuable resource for academic researchers  
interested in post disaster transformations and development studies practitioners in ngos and  
government officials dealing with disaster response and disaster risk reduction

providing an overview of the myriad ways that we are touched by death and dying both as an  
individual and as a member of society this book will help readers understand our relationship  
with death kastenbaum and moreman show how various ways that individual and societal  
attitudes influence both how and when we die and how we live and deal with the knowledge of  
death and loss this landmark text draws on contributions from the social and behavioral sciences  
as well as the humanities such as history religion philosophy literature and the arts to provide  
thorough coverage of understanding death and the dying process death society and human  
experience was originally written by robert kastenbaum a renowned scholar who developed one  
of the world s first death education courses christopher moreman who has worked in the field of

death studies for almost two decades specializing in afterlife beliefs and experiences has updated this edition
