this collection of twenty books is a chance to discover a diverse range of topics across the behavioural sciences from cognitive to social psychology psychiatry to psychoanalysis and many others in between it includes early works from psychologists who went on to become leaders in their fields as well as shaping the world of psychology as we know it today a great opportunity to acquire an eclectic mix of psychology titles from throughout the twentieth century

for over thirty years g n m tyrrell devoted himself to the study of psychical phenomena originally published in 1954 in his last book written just before his death he probes as deeply as possible into the meaning of the results of psychical research he believes that paranormal phenomena are not isolated occurrences due to the exceptional gifts of a few unusual persons but the result of capacities which all human beings possess though in widely varying degrees after an introductory chapter on psychology and psychiatry the chief psychical phenomena extra sensory perception mediumship apparitions etc are discussed and illustrated then follows a general criticism of current attitudes towards the subject the book ends with two chapters arguing that the normal and paranormal are one and

suggesting a pathway to religion
