like the female scientists portrayed in hidden figures mary sherman morgan was another unsung heroine of the space age now her story is finally told this is the extraordinary true story of america's first female rocket scientist told by her son it describes mary sherman morgan's crucial contribution to launching america's first satellite and the author's labyrinthine journey to uncover his mother's lost legacy one buried deep under a lifetime of secrets political technological and personal in 1938 a young german rocket enthusiast named wernher von braun had dreams of building a rocket that could fly him to the moon in ray north dakota a young farm girl named mary sherman was attending high school in an age when girls rarely dreamed of a career in science mary wanted to be a chemist a decade later the dreams of these two disparate individuals would coalesce in ways neither could have imagined world war ii and the cold war space race with the russians changed the fates of both von braun and mary sherman morgan when von braun and other top engineers could not find a solution to the repeated failures that plagued the

nascent us rocket program north american aviation where sherman morgan then worked was given the challenge recognizing her talent for chemistry company management turned the assignment over to young mary in the end america succeeded in launching rockets into space but only because of the joint efforts of the brilliant farm girl from north dakota and the famous german scientist while von braun went on to become a high profile figure in nasa s manned space flight mary sherman morgan and her contributions fell into obscurity until now

winner of the 2022 national book award for nonfiction instant new york times bestseller an elegant meditation on the complexities of the american south and thus of america by an esteemed daughter of the south and one of the great intellectuals of our time an inspiration isabel wilkerson an essential surprising journey through the history rituals and landscapes of the american south and a revelatory argument for why you must understand the south in order to understand america we all think we know the south even those who have never lived there can rattle off a list of signifiers the civil war gone with the wind the ku klux klan plantations football jim crow slavery but the idiosyncrasies dispositions and habits of the region are stranger and more complex than much of the country tends to acknowledge in south to america imani perry shows that the meaning of american is inextricably linked with the south and that our understanding of its history and culture is the key to understanding the nation as a whole this is the story of a black woman and native alabaman returning to the region she has always called home and considering it with fresh eyes her journey is full of detours deep dives and surprising encounters with places and people she renders southerners from all walks of life with sensitivity and honesty sharing her thoughts about a troubling history and the ritual humiliations and joys that characterize so much of southern life weaving together stories of immigrant communities contemporary artists exploitative opportunists enslaved peoples unsung heroes her own ancestors and her lived experiences imani perry crafts a tapestry unlike any other with uncommon insight and breathtaking clarity south to america offers an assertion that if we want to build a more humane future for the united states we must center our concern below the mason dixon line a recommended read from the new yorker the new york times time oprah daily usa today vulture essence esquire w magazine atlanta journal constitution popsugar book riot chicago review of books electric literature lit hub

in this ground breaking book dr michaeleen doucleff looks back to our ancestors for solutions to our failing modern day parenting theories
