the european union and the us are currently negotiating the transatlantic trade and investment partnership ttip with potentially enormous economic gains for both partners experts from the european union and the us explore not only the groundwork laid for ttip under the new transatlanticism but also the key variables economic cultural institutional and political shaping transatlantic policy outcomes divided into four parts part i consisting of three chapters contextualizes the transatlantic relationship with an historical survey contemporary foreign relations and policy and cultural dynamics together these chapters provide the background for understanding the evolving nature of the eu us relationship part ii of this volume focuses on governance and comprises two chapters one on transatlantic governance and the other administrative culture part iii consists of six policy chapters competition trade transport mobility regimes financial services regulation and gmos part iv consisting of three chapters explores prospects and challenges associated with transatlanticism including the ttip the last chapter concludes with lessons learned and future challenges with respect to policy convergence the nature of the eu us relationship power resources and bargaining within the transatlantic partnership and an assessment of the future of deeper cooperation and integration this insightful account into policy cooperation between the eu and the us is a welcomed resource for policy specialists oriented toward comparative public policy wishing to enter the arena of transatlantic studies

this dissertation elaborates differences and similarities of forms of ethical behaviour in general and analyses whether german consumers differentiate between different types of ethical behaviour in particular the thesis is characterised by its intensive combination of theoretical and empirical research it furthermore contributes to the literature as the method triangulation applied in the different surveys reveals previously unknown relationships between different kinds of ethical behaviour such as ethical consumption and charitable giving as well as between different forms of ethical products choice experiment latent class analysis information display matrix and item based attitude assessment allowed the comparison of stated and revealed preferences as well as an analysis of the relevance of ethical product features within the context of different product and process attributes the dissertation provides insights into a research field which is becoming more and more relevant and improves the understanding of consumers assessment and the interdependencies of the possibilities of ethical behaviour this allows the development of recommendations for consumer policy makers business and ngos concerned with the ethics of consumer choice as well as future research on ethical behaviour in general and ethical consumption in particular

in politics ideas matter they provide the foundation for economic policymaking which in turn shapes what is possible in domestic and international politics yet until now little attention has been paid to how these ideas are produced and disseminated and how this process varies between countries the national origins of policy ideas provides the first comparative analysis of how knowledge regimes communities of policy research organizations like think tanks political party foundations ad hoc commissions and state research offices and the institutions that govern them generate ideas and

communicate them to policymakers john campbell and ove pedersen examine how knowledge regimes are organized operate and have changed over the last thirty years in the united states france germany and denmark they show how there are persistent national differences in how policy ideas are produced some countries do so in contentious politically partisan ways while others are cooperative and consensus oriented they find that while knowledge regimes have adopted some common practices since the 1970s tendencies toward convergence have been limited and outcomes have been heavily shaped by national contexts drawing on extensive interviews with top officials at leading policy research organizations this book demonstrates why knowledge regimes are as important to capitalism as the state and the firm and sheds new light on debates about the effects of globalization the rise of neoliberalism and the orientation of comparative political economy in political science and sociology

towards a better understanding of how medicines are used in society drug utilization research dur is a discipline which combines aspects of pharmacotherapy epidemiology and health services research into an interdisciplinary set of methods for analyzing and assessing the prescribing dispensing and consumption of medicines it combines both qualitative and quantitative approaches to facilitate the safe and effective use of pharmaceuticals drug utilization research methods and applications provides a comprehensive introduction to this discipline prepared by an international team of authors with broad experience in numerous fields now reorganized and updated to reflect the latest research and global challenges it is an indispensable resource for understanding the use of pharmaceuticals readers of the second edition of drug utilization research will find new chapters on methods including more hands on guidance on how to plan and conduct different types of drug utilization a section on specific applications in areas such as psychotropics opioids cancer drugs antibacterials and cardiovascular drugs a new section with case studies illustrating applications of dur in different continents detailed treatment of subjects including dur and health policy dur in specific populations and many more drug utilization research is ideal for epidemiologists pharmacists physicians nurses and others interested in drug use and its outcomes
