the role of orthography in reading and writing is not a new topic of inquiry for example in 1970 venezky made a seminal contribution with the structure of english orthography in which he showed how both sequential redundancy probable and permissible letter sequences and rules of letter sound correspondence contribute to orthographic structure in 1980 ehri introduced the concept of orthographic images that is the representation of written words in memory and proposed that the image is created by an amalgamation of the word s orthographic and phonological properties in 1981 taylor described the evolution of orthographies in writing systems from the earliest logographies for pictorial representation of ideas to syllabaries for phonetic representation of sounds to alphabets for phonemic representation of sounds in 1985 frith proposed a stage model for the role of orthographic knowledge in development of word recognition initially in the logographic stage a few words can be recognized on the basis of partial spelling information in the alphabetic stage words are recognized on the basis of grapheme phoneme correspondence in the orthographic stage spelling units are recognized automatically without phonological mediation for an historical overview of research on visual processing of written language spanning the earliest records of writing to the early work in experimental psychology see venezky 1993

although it was the first permanent european settlement in the delaware river valley the new sweden colony has long been ignored by american colonial historians to right this omission and to mark the 350th anniversary of the founding of the new sweden colony the university of delaware sponsored an international conference new sweden in america scandinavian pioneers and their legacy in march of 1988 this event brought together twenty eight scholars from sweden finland and the united states who represented several fields including history anthropology and geography the conference papers collected in new sweden in america present the first look at the new sweden colony since the advent of modern historical methods the essays in this volume examine the economic and social lives of a political entity as well as its political structures the topics discussed include an examination of the european environment from which the colonial venture came the colonists relations with the native americans and the swedish and finnish settlers adaptation to colonial life the essays depict seventeenth century sweden as it emerged from its traditional ways and isolation into the dynamic world of western european international politics and trade and the failed attempts to bring european

mercantilist policies to new sweden the fascinating stories of the trade between the swedish and dutch settlers and the susquehannock and lenni lenape indians the development of pidgin languages to facilitate the trade the devout lutheran religious observations of the colonists and the introduction of finnish construction methods especially the log cabin are all described in this volume to encourage further scholarship in this field the contributors identify topics for future study and delineate where original colonial documents may be found on both sides of the atlantic book jacket title summary field provided by blackwell north america inc all rights reserved
