in the past thirty years epistemology has been one of the fastest moving disciplines in philosophy the reason for the rapid advancement is partly due to the fact that various

schools and movements inside epistemology have developed different answers to classical epistemological problems and partly due to the fact that formal methods from logic probability theory and computability have been utilized to deal with many of the same issues and used for applications outside traditional epistemology new waves in epistemology reflects these changes by letting up and coming scholars describe the current trends as well as discussing the prospects for future development

in the past thirty years epistemology has been one of the fastest moving disciplines in philosophy the reason for the rapid advancements is partly due to the fact that various schools and movements inside epistemology have developed different answers to classical epistemological problems and partly due to the fact that formal methods from logic probability theory and computability have been utilized to deal with many of the same issues and used for applications outside traditional epistemology new waves in epistemology reflects this fast development letting a new generation of scholars both describe the current trends in mainstream and formal epistemology and discuss the prospects of epistemology in the decades to come

for anyone looking to better understand the topics at the centre of contemporary epistemology the bloomsbury companion to epistemology presents a valuable guide this up to date companion covers all the fundamental questions asked by epidemiologists today areas that have continued to attract interest historically as well as topics that have emerged more recently as active areas of research fifteen specially commissioned essays from a respected team of experts reveal where important work continues to be done in the area and the new directions the field is taking such as foundationalism by daniel howard snyder coherentism by jonathan kvanvig proper functionalism by kenneth boyce and alvin plantinga evidentialism by richard feldman and andrew cullison experimental epistemology by james r beebe clearly written and featuring a detailed list of resources glossary and a fully annotated bibliography the bloomsbury companion to epistemology introduces some of the most exciting topics in contemporary analytic philosophy

edited by an international team of leading scholars the routledge handbook of social epistemology is the first major reference work devoted to this growing field the handbook s 46 chapters all appearing in print here for the first time and written by philosophers and

social theorists from around the world are organized into eight main parts historical backgrounds the epistemology of testimony disagreement diversity and relativism science and social epistemology the epistemology of groups feminist epistemology the epistemology of democracy further horizons for social epistemology with lists of references after each chapter and a comprehensive index this volume will prove to be the definitive guide to the burgeoning interdisciplinary field of social epistemology

the continuum companion to epistemology offers the definitive guide to a key area of contemporary philosophy the book covers all the fundamental questions asked by epistemology areas that have continued to attract interest historically as well as topics that have emerged more recently as active areas of research sixteen specially commissioned essays from an international team of experts reveal where important work continues to be done in the area and most valuably the exciting new directions the field is taking the companion explores issues pertaining to foundationalism coherentism infinitism reliabilism proper functionalism evidentialism skepticism contextualism epistemic relativism intuition and experience featuring a series of indispensable research tools including an a to z of key terms and concepts a chronology a detailed list of resources and a fully annotated bibliography this is the essential reference tool for anyone working in contemporary epistemology

recent epistemology has reflected a growing interest in issues about the value of knowledge and the values informing epistemic appraisal is knowledge more valuable than merely true belief or even justified true belief is truth the central value informing epistemic appraisal or do other values enter the picture epistemic value is a collection of previously unpublished articles on such issues by leading philosophers in the field it will stimulate discussion of the nature of knowledge and of directions that might be taken by the theory of knowledge the contributors are jason baehr michael brady berit brogaard michael depaul pascal engel catherine elgin alvin goldman john greco stephen grimm ward jones martin kusch jonathan kvanvig michael lynch erik olsson wayne riggs and matthew weiner

metaethics occupies a central place in analytical philosophy and the last forty years has seen an upsurge of interest in questions about the nature and practice of morality this collection presents original and ground breaking research on metaethical issues from some

of the very best of a new generation of philosophers working in this field

epistemic evaluation aims to explore and apply a particular methodology in epistemology the methodology is to consider the point s or purpose s of our epistemic evaluations and to pursue epistemological theory in light of such matters call this purposeful epistemology the idea is that considerations about the point and purpose of epistemic evaluation might fruitfully constrain epistemological theory and yield insights for epistemological reflection several contributions to this volume explicitly address this general methodology or some version of it others focus on advancing some application of the methodology rather than on theorizing about it the papers go on to explore the idea that purposes allow one to understand the conceptual demands on knowing examine how purposeful epistemology might shed light on the debate between internalist and externalist epistemologies and further develop the idea of purposeful epistemology
