magic is something unauthorised an alternative perhaps even a deliberate cultivation of dark evil powers but for the anglo saxon age the neat division between mainstream and occult rational and superstitious christian and pagan is not always easy to discern to maintain its authority the church drew a formal line and outlawed a number of dubious practices such as divination spells and folk healing while at the same time conducting very similar rituals itself it would seem that there was a convergence of the two cultures native and christian and this may effect the tendency to view pagan gods as near omnipotent beings
