in these eleven essays scholars from diverse disciplines address the argument reception and implications of the dialectic of sex and make a compelling critical case for its contemporary salience

the dialectic of essence offers a systematic new account of plato s metaphysics allan silverman argues that the best way to make sense of the metaphysics as a whole is to examine carefully what plato says about ousia essence from the meno through the middle period dialogues the phaedo and the republic and into several late dialogues including the parmenides the sophist the philebus and the timaeus this book focuses on three fundamental facets of the metaphysics the theory of forms the nature of particulars and plato s understanding of the nature of metaphysical inquiry silverman seeks to show how plato conceives of being as a unique way in which an essence is related to a form conversely partaking having is the way in which a material particular is related to its properties particulars thus in an important sense lack essence additionally the author closely analyzes plato s idea that the relation between forms and particulars is mediated by form copies even when some late dialogues provide a richer account of particulars silverman maintains that particulars are still denied essence indeed with the timaeus s introduction of the receptacle there are no particulars of the traditional variety this book cogently demonstrates that when we understand that plato s concern with essence lies at the root of his metaphysics we are better equipped to find our way through the labyrinth of his dialogues and to better appreciate how they form a coherent theory

kierkegaard and the dialectics of modernism defines literary modernism represented by seven english american and scandinavian authors as not only a manifestation of man s separation and alienation from himself and society but also as an expression of man s struggle towards integration and liberation in the

texts this dialectic is reflected in the ironic interplay between the fragmentation of language and the poetic longing for wholeness Kierkegaard's philosophy and Freud's psychology express a conflict comparable to the modernist dilemma the areas of philosophy psychology and literature when examined dialectically reveal a common response in different terms to a shared historical situation

Conventionally analysts of social change perceive organizational initiatives in binary terms projects are seen as being either top down or bottom up local culture is seen as being either modern or traditional challenging this restrictive dualism this important book argues that social change emerges in a nonlinear circuitous and dialectic process of struggle in support of their approach the authors identify four dialectic tensions as being central to the process of organizing for social change control and emancipation oppression and empowerment dissemination and dialogue and fragmentation and unity argue for a dialectic approach which acknowledges that contradictory tensions can and do co-exist for example a project can control beneficiaries with tough conditionalities even as it emancipates them and draw upon cases set in various contexts social justice academic corporate artistic and others from both developing and developed countries

this book lays bare the ideological and political character of the positivist rationality that has been the primary theoretical underpinning of educational research in the united states these assumptions have expressed themselves in the form and content of curriculum classroom social relations classroom cultural artifacts and the experiences and beliefs of teachers and students have existing radical critiques provided the theoretical building blocks for a new theory of pedagogy the author attempts to move beyond the abstract negative characteristics of many radical critiques which are often based on false dualisms that fail to link structure and intentionally content and process ideology and hegemony etc he also is critical of the over determined models of socialization and the abstract celebration of subjectivity that underlies much of the false utopianism of many radical perspectives professor giroux begins to lay the theoretical groundwork for developing a radical pedagogy that connects critical theory with the need for social action in the interest of individual freedom and social reconstruction author note henry a giroux is assistant professor of education at boston university he is the co editor of curriculum and instruction alternatives in education and the hidden curriculum and moral education

a timely new critique of capitalism s persistent failure to value nature capitalism is typically treated as a force for relentless commodification yet it consistently fails to place value on vital aspects of the nonhuman world whether carbon emissions or entire ecosystems in free gifts alyssa battistoni explores capitalism s persistent failure to value nature arguing that the key question is not the moral issue of why some kinds of nature shouldn t be commodified but the economic puzzle of why they haven t been to understand contemporary ecological problems from biodiversity collapse to climate change she contends we have to understand how some things come to have value under capitalism and how others do not to help us do so battistoni recovers and reinterprets the idea of the free gift of nature used by classical economic thinkers to describe what we gratuitously obtain from the natural world and builds on karl marx s critique of political economy to show how capitalism fundamentally treats nature as free for the taking this novel theory of capitalism s relationship to nature not only helps us understand contemporary ecological breakdown but also casts capitalism s own core dynamics in a new light battistoni addresses four different instances of the free gift in political economic thought each in a specific domain natural agents in industry pollution in the environment reproductive labor in the household and natural capital in the biosphere in so doing she offers new readings of major twentieth century thinkers including friedrich hayek simone de beauvoir garrett hardin silvia federici and ronald coase ultimately she offers a novel account of freedom for our ecologically troubled present developing a materialist existentialism to argue that capitalism limits our ability to be responsible for our relationships to the natural world and imagining how we might live freely while valuing nature s gifts
