this book constitutes the refereed proceedings of the tracks and workshops which
complemented the 17th european conference on software architecture ecsa 2023 held in istanbul
turkey in september 2023 the 29 full papers included in this book were carefully reviewed and
selected from 32 submissions they were organized in topical sections as follows amp casa de i
track demessa faacs qualifier twinarch tools and demos industry track and doctoral symposium

this book aims to provide sustainable solutions for better understanding and management of
online education in different parts of the world in this context it explores the attitudes and
perceptions of stakeholders such as students faculty and other actors on issues related to online
education in particular it examines the challenges they have faced over the years when online
courses were introduced due to the covid 19 pandemic a model is proposed that includes five
variables specific communication issues in online education the ability of professors to offer
online courses the quality of online education students perceived stress during online education
and the technical requirements of online education the book will be of interest to anyone
concerned with the new and future ways of teaching and learning chapter when a
phenomenon based university course went online students experiences and reflections after
sauna bathing is available open access under a creative commons attribution 4 0 international

the kenya gazette is an official publication of the government of the republic of kenya it contains
notices of new legislation notices required to be published by law or policy as well as other
announcements that are published for general public information it is published every week
usually on friday with occasional releases of special or supplementary editions within the week

this book outlines the current development of geoethical thinking proposing to the general
public reflections and categories useful for understanding the ethical cultural and societal
dimensions of anthropogenic global changes geoethics identifies and orients responsible
behaviors and actions in the management of natural processes redefining the human interaction
with the earth system based on a critical scientifically grounded and pragmatic approach solid
scientific knowledge and a philosophical reference framework are crucial to face the current
ecological disruption the scientific perspective must be structured to help different human

contexts while respecting social and cultural diversity it is impossible to respond to global problems with disconnected local actions which cannot be proposed as standard and effective operational models geoethics tries to overcome this fragmentation presenting earth sciences as the foundation of responsible human action toward the planet geoethics is conceived as a rational and multidisciplinary language that can bind and concretely support the international community engaged in resolving global environmental imbalances and complex challenges which have no national cultural or religious boundaries that require shared governance geoethics is proposed as a new reading key to rethinking the earth as a system of complex relationships in which the human being is an integral part of natural interactions
