This guide shares a number of initiatives and studies from recent years that have shone a light on pastoral governance and land tenure, on the inherent challenges pastoralists face, the shortcomings of governments in securing pastoral tenure, and emerging examples of success and progress from around the world. This guide proposes solutions to securing pastoral governance and tenure without undermining the inherent complexity of customary arrangements.

The book is an essential resource for those interested in investigating the lives, histories, and futures of indigenous peoples around the world. Perfect for readers looking to learn more about cultural groups around the world, this four-volume work examines approximately 400 indigenous groups globally. The encyclopedia investigates the history, social structure, and culture of peoples from all corners of the world, including their role in the world, their politics, and their customs and traditions. Alphabetically arranged entries focus on groups living in all world regions, some of which are well known with large populations and others that are lesser known with only a handful of surviving members. Each entry includes sections on the group's geography and environment, history and politics, society, culture, and tradition, access to health care and education, and threats to survival. Each entry concludes with 'see also' cross-references and a list of further reading resources to guide readers in their research. Also included in the encyclopedia are native voices inset boxes allowing readers a glimpse into the daily lives of members of these indigenous groups, as well as an appendix featuring the United Nations Declaration on the Rights of Indigenous Peoples.

The introduction of Islam ushered in an era of social and cultural change to the region. Some pre-Islamic sacred places have been transformed into Islamic ones, and the cult of saints absorbed elements of both local and Arab mythology. This volume, which is a project initiated by the Balkan History Association, focuses on Islamic culture, traditions, and pre-Islamic beliefs in Central Asia. The chapters emphasize the importance of religious life, the significance of certain sacred places, and their role in the socio-spiritual life. The volume includes research spanning a period from antiquity to the post-Soviet era to explore how landscapes of religious places and practices were interpreted and reinterpreted through time.

With their soaring peaks, remote locations, and majestic beauty, mountains have long been a powerful attraction for visitors from all walks of life who are drawn by the often colorful traditions of local communities, the opportunities for sporting activities, and the spiritual solace to be found in highland landscapes. This study highlights the important role that tourism can play in valuing the natural and spiritual heritage of mountains and the cultural diversity and traditional practices of mountain peoples, particularly when linked to nature and rural tourism.

mountain tourism can make a valuable contribution to promoting sustainable food systems and adding value to local products developing sustainable tourism in mountains requires reducing its negative environmental and social impacts and addressing the challenges posed by climate change the covid 19 pandemic has already brought about major changes in the mountain tourism sector and substantial losses for communities and businesses however consumer appetites for destinations that are outdoors and less crowded have increased in the wake of the pandemic and these changes usher in new opportunities for mountain destinations to rebuild a greener and more sustainable form of tourism and rethink their products and services for this to happen the following measures will be critical innovation and development of year round tourism experiences investments in infrastructure particularly for the digitalization of mountain tourism services strengthening multi level governance partnerships and active community participation and ensuring regular assessments of the impact of tourism on mountains the effective management of waste and resources and clearer practices for defining and managing the carrying capacity of highland destinations
