imparts a true sense of the magical light that has shaped great buildings in denmark finland norway and sweden

light has a fundamental role to play in our perception of the world natural or artificial lightscapes orchestrate uses and experiences of space and in turn influence how people construct and negotiate their identities form social relationships and attribute meaning to im material practices archaeological practice seeks to analyse the material culture of past societies by examining the interaction between people things and spaces as light is a crucial factor that mediates these relationships understanding its principles and addressing illumination s impact on sensory experience and perception should be a fundamental pursuit in archaeology however in archaeological reasoning studies of lightscapes have remained largely neglected and understudied this volume provides a comprehensive and accessible consideration of light in archaeology and beyond by including dedicated and fully illustrated chapters covering diverse aspects of illumination

in different spatial and temporal contexts from prehistory to the present written by leading international scholars it interrogates the qualities and affordances of light in different contexts and in material environments explores its manipulation and problematises its elusive properties the result is a synthesis of invaluable insights into sensory experience and perception demonstrating illumination's vital impact on social cultural and artistic contexts

using case studies such as the use of candlelight and energy saving lightbulbs in denmark this book unravels light's place at the heart of social life in contrast to common perception of light as a technical and aesthetic phenomenon mikkel bille argues that there is a cultural and social logic to lighting practices by empirically investigating the social role of lighting in people's everyday lives mikkel bille reveals how and why people visually shape their homes moving beyond the impact of its use bille also comments on the politics of lighting to examine how ideas of pollution and home act as barriers for technological fixes to curb energy demand attitudes to these issues are reflective of how human perceptions and practices are central to the efforts to cope with climate change this ethnographic study is a must read for students of anthropology cultural studies human geography sociology and design

modernism was instrumental in the development of twentieth and twenty first century scandinavian architecture for it captured a progressive urbane character that was inextricably associated with and embraced the social programmes of the nordic welfare states recognized internationally for its sensitivity and responsiveness to place and locale and its thoughtful use of materials and refined detailing nordic architecture continues to evolve and explore its modernist roots this new book covers the romantic and classical architectural foundations of nordic modernism the development of nordic functionalism the maturing and expansion of nordic modern architecture in the post war period international influences on scandinavian modernism at the end of the twentieth century and finally the global and local currents found in contemporary nordic architecture superbly illustrated with 100 colour images

a tradition of printmaking has existed among artists from the scandinavian countries for only 100 years but during that time it has enjoyed special favour as a means of creative expression

the nature of nordic music explores two distinctive yet complementary understandings of the term nature the inherent features characters and qualities of contemporary nordic music and how the elemental forces of nature the phenomena of the physical world landscape climate environment inspire and condition creativity here within a broader debate about the meaning of nordicness 12 case studies challenge our assumptions about a nordic tone to reveal a creative energy that is diverse and cosmopolitan in outlook

each of the three parts of the book identities images and environments accommodates an eclectic array of musical genres classical popular jazz folk electronic this book will appeal to anyone interested in nordic music and culture especially students and researchers
