includes 24 maps this thesis begins with a brief history of armored vehicles from their earliest concepts to the modern battle tank of today it critically examines the decision not to include tank units with the first american combat forces deployed in vietnam and the irrationality of that decision in light of a similar decision made prior to the korean conflict tanks were deployed in limited numbers in vietnam in spite of a decision to the contrary and once there i proved their usefulness and their ability to perform in a tropical environment against an elusive enemy examples of the tank s effectiveness in vietnam are given and the feasibility of deploying major armored forces to that country is discussed problems created by insufficient armor are addressed as well as the limitations and vulnerabilities of tanks and other armored vehicles armor doctrine is traced from the tank s role in breaking the stalemate of world war i through the formative years of world war ii and its application to the war in vietnam since most armored weapons were designed primarily for conventional warfare a number of modifications were required to adapt the weapons to an unconventional war some of the more significant modifications are described finally lessons learned by the vietnam experience and their future application are discussed concluding consideration in the paper is whether or not decision makers will need these lessons learned or continue to make the same mistakes

the german wehrmacht was one of the most capable fighting forces the world has ever known but in the end it was no match for the allies some historians contend that the allies achieved victory through brute force and material superiority but as peter mansoor argues all of the material produced by us industry was useles without trained soldiers to operate it a coherent doctrine for its use and leaders who could effectively command the formations into which it was organized

american multi volume work on infantry technique and tactics published by the infantry school 1942 1945 a work that appeared in several editions both volumes contain assignments including answers and both volumes enclosed a protractor and a single map as a loose appendix
