this open access book traces the research and teaching contributions of kenneth goodpaster over more than 45 years of his career the book shows the content and the progression of these themes over the years identifying four insights in applied ethics the moral insight the institutional insight the anthropological insight and the socratic insight it highlights such concepts as conscience corporate responsibility corporations as agents and as recipients stockholders stakeholders comprehensive moral thinking and ethics education in addition goodpaster explains phrases such as teleopathy moral projection human dignity and the common good finally the book examines with concern the implications of the foregoing

for the polarizing and partisan trends in contemporary business behavior kenneth goodpaster s new book times of insight conscience corporations and the common good reflects the culmination of 50 years of incredible philosophical insights forming the basis of business ethics his concept of corporate conscience as a moral projection from individual conscience to organizational behavior is both an original as well as a most worthwhile approach to organizational responsibility coupling that with a clear notion of the common good goodpaster provides substantive grounds for a creative analysis of ethical issues in business this is one of the most exciting new books in the field patricia h werhane professor emerita university of virginia and professor emerita depaul university beginners beware wickedly interdisciplinary describes corporate ethics more than interdisciplinary the field asks questions that range across disciplines nations and centuries who better to cut this gordian knot than ken goodpaster a true giant in the field who mixes a prodigious knowledge of contemporary corporations with a deep understanding of intellectual history to produce a new and stunning amalgam a must read thomas donaldson the mark o winkelman professor the wharton school university of pennsylvania as one of the pioneers in business ethics kenneth goodpaster has given us a great gift of synthesizing 50 years of philosophical reflection and corporate practice on some of the most important questions and issues for business today this work is not nostalgia but an important source of wisdom for leaders today and into the future dr michael naughton director center for catholic studies koch chair in catholic studies university of st thomas

captures the basic laws of growth companies and creates a new formula for success richard a daveni tuck school of business dartmouth college organic business growth is governed by its own natural laws underlying truths that set the

stage for growth and innovation much in the way that Einstein's theory of relativity accounts for the movement of objects in the space time continuum the most fundamental law is that uncertainty is the only certainty dominating forces are ambiguity and change the processes at work involve exploration invention and experimentation unfortunately these truths run counter to the principles of stability predictability and linearity that have long informed the design of our firms the physics of business growth explains how to create growth in today's business environment providing a roadmap and a set of practical tools to navigate its challenges the book lays out a three step formula that will prove invaluable to professionals who have the opportunity to influence growth now as well as to tomorrow's growth leaders guiding them in

- 1 creating the right employee and organizational mindsets to enable growth
- 2 building an internal corporate growth system and
- 3 putting in place processes that result in identifying opportunities launching growth experiments and managing a growth portfolio

avoids the trap of magical thinking which glosses over the messiness and complexity involved in growing a business rather they offer a robust toolkit that growth leaders can adapt to their own circumstances
