do energies produce objects or objects produce energies albert einstein set his  
career on revealing the secret mysticism it is jewish mysticism written in the book  
zohar splendor or radiance that interprets the biblical creation by slowing and  
extinguishing light in other words zohar introduced mass energy equivalence  
matter is that light and relativity of time due to speed lost speed of that light has  
produced time einstein just added mathematical formulas to those mystic  
theorems to be called scientific quantum theories thus he has returned physics  
back in the dark age that ruled before newton the book zohar written in the 2nd  
century on the contrary halza applies just newton style of physics onto particles  
existing on the smallest level only motion of these particles may produce energy  
quantum of energy or energy in field then it is the newtonian physics of motion

that proposes understanding of all existing particles and forces including dark energy and dark matter while materialistic explanations are going on in this publication all main questions about origin particles and origin forces including why does light have the constant speed and so on are answered
