onshore unconventional gas operations in most jurisdictions operate on the legal principle that all activities during exploration and extraction are temporary in nature the concept that the

onshore unconventional gas industry has a temporary effect on the land on which it operates creates a regulatory paradox on one hand unconventional gas activities create energy security national wealth and a burgeoning export industry on the other agricultural land and agriculturalists may be significantly disadvantaged by unconventional gas activities potentially producing permanent damage to non renewable fertile soils and spoiling the underground water tables thus threatening future food security and food sovereignty this book explores the socio regulatory dimensions of coexistence between agricultural and onshore unconventional gas land uses in the jurisdictions with the highest concentration of proven unconventional gas reserves australia canada the usa the uk france poland and china in exploring the differing regulatory standpoints of unconventional gas land uses on productive farming land in the chosen jurisdictions this book provides an original three part categorisation of regulatory approaches addressing the coexistence of agricultural land and unconventional gas namely adaptive management precautionary and finally statism it offers a timely and topical approach to socio legal natural resource governance theory based on the participation transparency and empowerment for agricultural landholders examining how differing frameworks such as the collective bargaining framework can create equitable and sustainable contractual arrangements with unconventional gas companies

essay from the year 2017 in the subject sociology miscellaneous grade 2 1 london school of economics international inequalities institute language english abstract despite an increasing awareness of income inequality in the us it continues to widen in part due to lack of effective redistributive policy these policies are largely shaped by public opinion and so it seems necessary to look at underlying patterns of social beliefs and preferences in the us in particular wage inequality has been rising since the 1980s and most americans agree that the government should do something to reduce the gap despite widening income inequality however public support for redistribution has stagnated i argue that alongside other material factors social norms of racial exclusion and optimism about equal access to social mobility in the us have sown an environment in which public support for redistribution as a remedy for income inequality remains low i then discuss feasible norm centered policies to promote social justice and cohesion
