no one who cares about the human future can afford to ignore edward o wilson s book on human nature begins a new phase in the most important intellectual controversy of this generation is human behavior controlled by the species biological heritage does this heritage limit human destiny

questions for further consideration and recommended further reading which follow each relevant chapter encourage readers to think further and to craft their own

perspectives

the book on the living god the book on life beyond and this book form a trilogy these three books should be read together the book on human nature presents basic concepts about human nature with the goal of inspiring readers to awaken the timeless spiritual spark within we become fully human only when the spiritual potential within us gradually awakens and infuses our material purely animal selves it is a path that every human being may and should pursue a central understanding is that all life results from the joining of opposites in particular the polarity of male and female energies bo yin ra emphasizes that the true spiritual human being is male and female united in one entity when we seek our spiritual self we must call forth the male and female in ourselves and in all things he discusses the biblical fall from grace as a descent from the spiritual plane in which male and female were united onto a material plane in which male and female are split apart here on earth this split can be healed within marriage a true marriage bo yin ra tells us is preparation for the life beyond by coordinating the desires wills and attitudes of two beings we once again bring about in some measure the original state in which male and female energies are united e w s publisher the kober press publishes the only english translations of the books of bo yin ra authorized by the kober verlag switzerland the kober verlag publishes the books of bo yin ra in the original german and has protected their integrity since the author s lifetime contents introduction the mystery enshrouding male and female the path of the female the path of the male marriage children the human being of the age to come epilogue a final word

recent empirical and philosophical research into the evolutionary history of homo sapiens the origins of the mind brain and the development of human culture has sparked heated debates about what it means to be human and how knowledge about humans from the sciences and humanities should be understood conversations on human nature featuring 20 interviews with leading scholars in biology psychology anthropology philosophy and theology brings these debates to life for teachers students and general readers the book outlines the basic scientific philosophical and theological issues involved in understanding human nature organizes material from the various disciplines under four broad headings 1 evolution brains and human nature 2 biocultural human nature 3 persons minds and human nature 4 religion theology and human nature concludes with fuentes and visala s discussion of what researchers into human nature agree on what they disagree on and what we need to learn to resolve those differences

david lloyd dusenbury provides the first monograph in english on the first christian anthropology a text which influenced ideas about human nature in the byzantine and

islamicate worlds and in europe well into the early modern period

unpopular in its day david hume s sprawling three volume a treatise of human nature 1739 40 has withstood the test of time and had enormous impact on subsequent philosophical thought hume s comprehensive effort to form an observationally grounded study of human nature employs john locke s empiric principles to construct a theory of knowledge from which to evaluate metaphysical ideas a key to modern studies of eighteenth century western philosophy the treatise considers numerous classic philosophical issues including causation existence freedom and necessity and morality unabridged republication of the edition originally published by oxford at the clarendon press london 1888

human nature explained a new illustrated treatise on human science for the people is an unchanged high quality reprint of the original edition of 1897 hansebooks is editor of the literature on different topic areas such as research and science travel and expeditions cooking and nutrition medicine and other genres as a publisher we focus on the preservation of historical literature many works of historical writers and scientists are available today as antiques only hansebooks newly publishes these books and contributes to the preservation of literature which has become rare and historical knowledge for the future

this book explores the idea of human nature and the many understandings of it put forward by such diverse figures as aristotle rousseau marx freud darwin and e o wilson each chapter looks at a different theory and offers a concise explanation assessing the theory s plausibility without forcing it into a mould some chapters deal with the ideas of only one thinker while others such as the chapters on liberalism and feminism present a variety of different positions a clear distinction is made between theories of human nature and the political theories which so often follow from them for the new edition loptson has addressed the new developments in the rapidly expanding genetic and paleontological record as well as expanded the discussion of the christian theory of human nature by incorporating the ideas of the marx scholar and social theorist g a cohen the new edition has also been substantively revised and updated throughout

human nature and behavior is complex and puzzling driven by experience ambitions struggles passion emotions etc humans try to find ways to survive and progress every individual is unique and shapes differently yet there exists a common thread or a general pattern showing a natural trend it is possible to understand this trend if one keeps free from biases ideologies or closed thinking the positivity could provide a picture that would be closer to reality peculiar human behaviors could be

realistically understood within a general pattern in daily experiences one gets ideas and thoughts to understand the diverse behavior of people around collating and expressing these thoughts on diverse topics needs efforts to shade out unrealistic contents and take it closer to the reality the topics covered in the book are of common interest and readers may find them closer to their daily experiences overall there is a message to be positive going closer to the natural processes and taking a balanced view even in puzzling situations understanding human nature is a utilitarian exercise diverse unending interesting and relaxing contributing to this dispassionate exercise is always a pleasure for anyone

summary this book is if you ve ever wondered about human behavior wonder no more in the laws of human nature greene takes a look at 18 laws that reveal who we are and why we do the things we do humans are complex beings but greene uses these laws to strip human nature down to its bare bones every law that he presents is supported by a real life historical account with an insightful twist to drive the point home as you read the book don t be surprised if you get the feeling that everyone you know including yourself is described in the book disclaimer this is an unofficial summary and not the original book it is designed to record all the key points of the original book

while there may be no one single characteristic that differentiates humans as a species it is the combination of differences from other species that makes us unique the new edition of being human examines the psychology of being human through exploring different psychological traditions alongside philosophy and evolutionary theory covering themes such as culture cognition language morality and society our nature or essence is something that has preoccupied human beings throughout our history beginning with philosophy and religion and continuing through the biological social and psychological sciences being human begins by describing some of the major philosophical accounts of human nature from ancient greek philosophers such as plato and aristotle to major british and continental philosophers such as locke and nietzsche the book considers religious accounts of human nature with their focus on the nature of good and evil and scientific accounts of genetics and the brain which underpin the distinctively human cognitive ability of language attention then turns to the ideas of the behaviourists such as skinner freud and other psychodynamic psychologists and humanistic phenomenological psychologists such as maslow finally human culture is discussed as the ultimate defining characteristic of human beings culture represents our natural habitat and what defines us as a species this updated second edition includes increased coverage of social psychology and has a broader scope in order to identify the defining characteristics of human beings with reference to current psychological research and philosophical material this is fascinating

reading for students of psychology philosophy and the social sciences

now available together as a set for a discounted price theories of human nature with human nature a reader by joel j kupperman

this scarce antiquarian book is a facsimile reprint of the original due to its age it may contain imperfections such as marks notations marginalia and flawed pages because we believe this work is culturally important we have made it available as part of our commitment for protecting preserving and promoting the world s literature in affordable high quality modern editions that are true to the original work

what is this thing we call human nature is it something one possesses simply by virtue of the fact that he was born a human being or does one come into it only by striving and working for it and whether the human element in human nature is something we inherit or something we acquire just what is it how does human nature differ from the nature of the rest of living beings these questions and many others along the same line must be raised by every person who desires to be called a human being not only because he looks like one but because he deserves the name by the way he manages his life this book tells the story of what is human in human nature as it is to be discovered by a wide and thoughtful reading in the fields of biology and psychology it is the hope of the author that he has read the story truly and has succeeded in telling it well the reader is warned that the story this book tells about himself will not help him to win friends or influence people or begin life at forty or find an easy quick and sure way to power fame and fortune but if he feels his obligation as a human being to lead the life that is worthy of a human being to lead because it is within his power to lead it then he will find that these pages will help him discover what that life is and the road he must follow if he is to attain it book psycinfo database record c 2014 apa all rights reserved
