polemic paper from the year 2018 in the subject economy health economics grade 1 egerton university language english abstract over the decades welfare states have been making effort to address social risks in order to enhance the wellbeing and economic prosperity of their citizens however the post industrial welfare state is experiencing a significant social risk shift due to social change it is apparent that the post industrial social change has led to the emergence of what the current literature refer to as new social risks this implies that welfare states are facing a more complex task of responding to the new social risks

which are attributable to changes in family structures and transformation of the labor market from a critical perspective the new social risks facing australia and other affluent countries include precarious employment gender inequality economic insecurity and poverty issues such as single parenthood possession of obsolete or low skills care for the elderly and disabled people and work and family life balance are considered as new social risks even though a precise definition of the new social risks concept is entirely missing in literature it is believed that these social risks are related to socioeconomic transformations within post industrial societies to address these risks a universal basic income has become highly debated however the proposed universal basic income policy is not a policy reform that fits all countries have to weigh its benefits and limitations in the case of australia the key question should be whether this policy is ideal to solve the emerging social risks or not again it is worth to consider its cost can australia afford it therefore this essay presents a focused argument on whether australia should adopt a basic income policy or not

ieb iers unesco pub research report on educational reform measures aimed at improving the transition from school to work in spain explains the spanish educational system discusses vocational training and the curriculum at different educational levels and mentions continuing education graphs and references

the authors of this volume argue that urban education is in urgent need of reform and that although there have been plenty of innovative and even promising attempts to improve conditions most have been doomed the reason for this they agree lies in the failure of our major cities to develop their civic capacity the ability to build and maintain a broad social and political coalition across all sectors of the urban community in pursuit of a common goal

this volume contains a collection of the contributions to the german chinese conference impact of national goals on basic research which took place at berlin in march 1999 referees from both countries report about the importance of basic research especially in the context of national goals the articles cover a broad range of various aspects regarding these topics like the role of universities in basic research social acceptance of scientific progress and interdisciplinary research

the american congress in the mid 1990s remains the object of voter discontent public outcries against special interests and unresponsive incumbents have amplified an already pervasive scepticism towards beltway politics the book covers policy towards agricultural issues in particular
