Visit mymanagementlab.com for more information. This title is a Pearson Global Edition. The editorial team at Pearson has worked closely with educators around the world to include content which is especially relevant to students outside the United States.

This title is a Pearson Global Edition. The editorial team at Pearson has worked closely with educators around the world to include content which is especially relevant to students outside the United States. For undergraduate principles of marketing courses, everything students need to know to develop their management sense and be successful. Fundamentals of Management covers the essential concepts of management by providing a solid foundation for understanding the key issues facing managers and organizations. The 11th edition maintains a focus on learning and applying management theories while now also highlighting opportunities to develop the skills in high demand by today's employers. Fundamentals of Management offers an easy-to-understand, straightforward and realistic approach to what works for managers and what doesn't, with the ultimate goal to help students be successful in their careers. MyLab Marketing is not included. Students, if MyLab Marketing is a recommended mandatory component of the course, please ask your instructor for the correct ISBN. MyLab Marketing should only be purchased when required by an instructor. Instructors, contact your Pearson representative for more information. Reach every student by pairing this text with MyLab Marketing. MyLab™ is the teaching and learning platform that empowers you to reach every student by combining trusted author content with digital tools and a flexible platform. MyLab personalizes the learning experience and improves results for each student.

Management in business and organizations is the function that coordinates the efforts of people to accomplish goals and objectives using available resources efficiently and effectively. Management comprises planning, organizing, staffing, leading or directing, and controlling an organization to accomplish the goal. Management involves identifying the mission, objective, procedures, rules, and the manipulation of the human capital of an enterprise to contribute to the success of the enterprise. This implies effective communication, an enterprise environment as opposed to a physical or mechanical mechanism, implies human motivation, and implies some sort of successful progress or system outcome.
