John Gattorna and Deborah Ellis are long term collaborators on the design and management of enterprise supply chains. Dr John Gattorna has been one of the most influential voices in the development of the modern supply chain. His long held vision of the supply chain as the central nervous system of an organisation and as a major source of competitive advantage if done well has inspired both supply chain professionals and CEOs to support this vision. He has led the development of frameworks and tools to guide design using customers as the sole frame of reference thus ensuring precise alignment between enterprise supply chains and the markets customers they serve. In 2018 John was awarded the Council of Supply Chain Management (CSCMP) Distinguished Service Award for his contribution to the profession and in the same year was inducted into the CSCMP Hall of Fame. Deborah Ellis has consulted with leading companies for over 20 years on logistics and supply chain strategy like John Gattorna the emphasis of her work has been on developing tailored supply chains that generate market advantage. She has worked with him and partnered with clients to apply, refine and extend the frameworks and methodologies that simplify the supply chain task while generating value for the customer and the business. Since 2017 they have together presented the Global Supply Chain Thought Leadership Retreat series for senior supply chain executives in the Asia Pacific, South Africa and Europe. These by invitation only events have been very well received and this book has evolved from the research and discussions associated with those events.

In most board rooms today the pressure to continuously shrink the distance from gross revenue to net operating profit and consistently improve ROI is acute. Many have realized and many more are beginning to realize that a well integrated and managed supply chain is a major driver of continuously improving results. Advanced supply management strategy and execution makes the tie between competitive survival and supply chain leadership. Maturity of process and associated results clearly defines how to achieve and maintain a supply chain leadership position by focusing on real world execution and detailed integration of specific actions and process techniques. These distinguished experts and accomplished authors have gathered the nuggets of success from many international firms and combined them into a winning formula not available in other books that has been achieved by the select few. This unique how to guide brings the opportunity within the sub processes of procurement and supply management into focus and includes both the hard side and soft side of the continuous process transformation. The real world concepts, deployment examples and illustrations are practical and explained with precision for ease of understanding and are tailored for application to any business environment. This no fluff book will put money in your company coffers. In most companies the effort to improve supply chain results has been short lived, incomplete or sub optimized. The most common reason is the lack of a clear understanding of what they really

need to do specifically line of sight linkage of the enterprise in the transformation process efforts to customers and shareholders advanced supply management strategy and execution provides a credible integrated roadmap to extended supply chain and enterprise engagement and sustained optimized competitive business results it is a must read for executives consultants and managers in all types of operations management roles and is suitable for advanced academic courses as well
