contemporary concepts and practices in marketing

monetary sovereignty is a crucial legal concept dictating that states have sovereignty over their own monetary financial and fiscal affairs however it does not feature as part of any key instruments of international law including the articles of agreement of the international monetary fund rather it has remained a somewhat separate notion developed under contemporary international law from an assertion of the former permanent court of international justice in 1929 as a consequence of globalization and increasing financial integration and a worldwide trend towards the creation of economic and monetary unions the principle of monetary sovereignty has undergone significant change this book examines this evolution in detail and provides a conceptual framework to demonstrate what this means for the legal and economic challenges faced by the international community the book examines the historic origins and evolution of the concept of monetary sovereignty putting it into the context of broader concepts of sovereignty it argues that monetary sovereignty remains relevant as a dynamic legal concept with both positive and normative components it investigates the continuing hybridization of international monetary law resulting from changes to its formal and material sources it then examines the complex phenomenon of exchange rate misalignment under international monetary and trade law and the increasing regionalization of monetary sovereignty notably in light of the european sovereign debt crisis finally it assesses the role the concept of monetary sovereignty can play in the reorganization of international finance following the recent global financial crisis

between 1700 and 1830 men and women in the english speaking territories framing the atlantic gained unprecedented access to material things the british atlantic was an empire of goods held together not just by political authority and a common language but by a shared material culture nourished by constant flows of commodities diets expanded to include exotic luxuries such as tea and sugar the fruits of mercantile and colonial expansion homes were furnished with novel goods like clocks and earthenware teapots the products of british industrial ingenuity this groundbreaking book compares these developments in britain and north america bringing together a multi disciplinary group of scholars to consider basic questions about women men and objects in these regions in asking who did the shopping how things were used and why they became the subject of political dispute the essays show the profound significance of everyday objects in the eighteenth century atlantic world

steiner analyzes how and why brodie s understanding of weapons of unparalleled explosive force led him to posit the need for revolutionary strategic thinking in broadminded analytic method and in the focus upon cities as nuclear targets he shows the tremendous effect brodie s work had on the intellectual climate in which policy is determined particularly in his frequent combatting of conventional wisdom

presents scientific research findings on major developments in contemporary social psychological theory and practice
