this book constitutes a new history of the complex memory cultures that persisted within post war west germany examining the attitudes of ordinary people to the second wave of nazi war crimes trials ushered in during the 1960s it explores responses to the prospect of continuing investigations the reception afforded to the defendants and the sheer resonance that such proceedings could generate within a local community drawing upon case studies from across the federal republic it bridges a gap between the current historiography and localised memory studies and analyses of war crimes trials far from viewing the 1960s as an uncomplicated decade of change this book emphasises the range of voices that were competing to make themselves heard during this period whether they came from survivors groups crusading journalists and students or from former prisoners of war veterans organisations and the war widowed this diversity of opinion and experience enabled the persistence of silences distortions and mythologies that could afford some level of distance to be imposed between the perpetrators of the nazi genocide and the ordinary west german population the process of coming to terms with the past was thus complicated and protracted

nearly half a century after the nazi massacre of the jews in europe the holocaust is now moving from the domain of experience to that of history it is becoming the subject of recorded rather than living memory is real comprehension of the development and horror of the nazi onslaught accessible to us if so through what intellectual processes or categories of understanding and in the face of what temptations or diversions how can we preserve expand and apply our knowledge of why and how barbarity came to prevail what meaning can present and future generations derive from the catastrophe these are the vital questions addressed by the essays in this volume

hitler s legacy is the first comprehensive look at the nazi problem in germany from 1945 until today the work stresses the major personnel controversies that arose from the reappearance of nazis in key positions and the payment of generous pensions to third reich officials by west

german governments the first comprehensive summary of germany s own war crime trials held since 1945 it also provides an overview of the allied postwar war crime trials at nuremberg and elsewhere two case studies highlight the post nazi milieu of 1950s west germany theodor oberlaender and hans globke both men played significant roles in the nazi regime and became more prominent in adenauer s 1950s west german government

critique of the case as presented in h arendt s eichmann in jerusalem giving a re evaluation of the available evidence

why did the judges lawyers and law professors of a civilized state succumb to a lawless regime what happened to liberalism and the rule of law under the third reich how many of the legal institutions and how much of their personnel carried over to the west german state after world war ii

arendt s analysis of the seductive nature of evil is a disturbing one we would like to think that anyone who would perpetrate such horror on the world is different from us and that such atrocities are rarities in our world but the history of groups such as the jews kurds bosnians and native americans to name but a few seems to suggest that such evil is all too commonplace in revealing eichmann as the pedestrian little man that he was arendt shows us that the veneer of civilization is a thin one indeed amazon com editorial review 1994 ed
