it is often said that education and training are the keys to the future they are but a key can be turned in two directions turn it one way and you lock resources away even from those they belong to turn it the other way and you release resources and give people back to themselves to realize our true creative potential in our organizations in our schools and in our communities we need to think differently about ourselves and to act differently towards each other we must learn to be creative ken robinson praise for out of our minds ken robinson writes brilliantly about the different ways in which creativity is undervalued and ignored especially in our educational systems john cleese out of our minds explains why being creative in today's world is a vital necessity this book is not to be missed ken blanchard co author of the one minute manager and the secret if ever there was a time when creativity was necessary for the survival and growth of any organization it is now this book more than any other i know provides important insights on how leaders can evoke and sustain those creative juices warren bennis distinguished professor of business university of southern california thomas s murphy distinguished research fellow harvard business school best selling author geeks and geezers all corporate leaders should read this book richard scase author and business forecaster this really is a remarkable book it does for human resources what rachel carson's silent spring did for the environment wally olins founder wolff olins books about creativity are not always creative ken robinson's is a welcome exception mihaly csikszentmihalyi c s and d j davidson professor of psychology claremont graduate university director quality of life research center best selling author flow the best analysis i've seen of the disjunction between the kinds of intelligence that we have traditionally honored in schools and the kinds of creativity that we need today in our organizations and our society howard gardner a hobbs professor in cognition and education harvard graduate school of education best selling author frames of mind

to imagine to see what is not there is the startling ability that has fueled human development and innovation through the centuries as a species we stand alone in our remarkable capacity to refashion the world after the picture in our minds traversing the realms of science politics religion culture philosophy and history felipe fernández armesto reveals the thrilling and disquieting tales of our imaginative leaps from the first homo sapiens to the present day through groundbreaking insights in cognitive science fernández

armesto explores how and why we have ideas in the first place providing a tantalizing glimpse into who we are and what we might yet accomplish unearthing and historical evidence he begins by reconstructing the thoughts of our paleolithic ancestors to reveal the subtlety and profundity of the thinking of early humans a masterful paean to the human imagination from a wonderfully elegant thinker out of our minds shows that bad ideas are often more influential than good ones that the oldest recoverable thoughts include some of the best that ideas of western origin often issued from exchanges with the wider world and that the pace of innovative thinking is under threat
