how to look at outsider art is an invaluable resource to help navigate the aesthetics of this evolving field it provides an overview of the field s most exciting works some of them never before published in book form this book points out the challenges of assessing work offers guidelines for aesthetic and collecting judgments and gives accounts of some of the field s spectacular successes featuring case studies that provide in depth examinations of individual works by particular artists and that discuss their critical and popular reception the book provides the criteria that should be used to evaluate these works of art all outsiders are not created equal and this book tells why book jacket

in this lucid and insightful essay renowned linguist roy harris reflects on the early nineteenth century doctrine of art for art s sake this was attacked by proudhon and nietzsche but defended by théophile gautier and e m forster it influenced movements as diverse as futurism and dada over the past two centuries three main positions have emerged the institutional view declares art to be a status conferred upon certain works by the approval of influential institutions the idiocentric view gives absolute priority to the judgment of the individual the third is the conceptual view of art which insists that what counts is the idea that inspired a work not the physical execution but as harris shows the tacit assumptions which once supported this debate and these positions have now collapsed art as a coherent category has imploded leaving behind a historical residue of empty questions that contemporary society can no longer answer the great debate about art provides much needed signposts for understanding this sorry state of affairs

this timely volume challenges the narrow western centrism of most art historical models archeologists have found that for tens of thousands of years all human cultures have shared a desire for visual representation or expression yet the study of art history has traditionally

the art of self taught artists including visionaries folk creators spiritualists recluses the mad and the socially marginalized was once scorned by the art establishment among the first to value and collect such works was the french artist jean dubuffet 1901 85 who coined the term art brut or raw art he saw art brut as the purest form of creation because it was uncooked by culture touched by a raw nerve and deriving directly from the psyche some 50 years later a wave of enthusiasm for contemporary folk art has gripped countries as far apart as india and the united states john maizels ties these disparate strands together providing an extensive survey of the self taught art of the twentieth century today a bewildering range of terminology has emerged along with growing enthusiasm for strains of creative expression outside the conventional art world in raw creation maizels traces the history of the recognition and study of this art and examines different theories and definitions that have grown up around it he provides detailed expositions of the work of individual artists ranging from such art brut masters as adolf wolfli and aloise corbaz to such gifted american folk artists as bill traylor and mose tolliver devoting several chapters to large scale visionary environments maizels takes a broad view embracing rodia towers in watts los angeles the palais idéal in the south of france and nek chand s sculpture garden in north india raw creation provides an indispensable guide to self taught art and a fascinating account of human creativity
