in his 1989 book fast capitalism ben agger presented a framework for understanding late 20th century social problems speeding up fast capitalism a sequel to his earlier book assesses social changes since the end of the 1980s brought about by information technologies like the internet which have quickened the pace of everyday life in speeding up fast capitalism agger assesses the impact of the internet on consciousness communication culture and community and evaluates the prospects of democratic social change where the earlier book was largely theoretical speeding up applies critical theory to specific topics such as internet culture work families childhood schooling food the body and fitness although indebted to fast capitalism the sequel appeals to an audience wider than theorists including empirical sociologists social scientists and scholars in cultural disciplines

in a series of interviews this book explores the formative experiences of a generation of critical theorists whose work originated in the midst of what has been

called the postmodern turn including discussions of their views on the evolution of critical theory over the past 30 years and their assessment of contemporary politics

public sociology 2nd edition offers a fundamental enriching of method far beyond the scope of research methodology textbooks it looks at sociology as a social act as writing in arguing for a public sociology that can more fully embrace and address crucial public issues building on the philosophy of science and recent postmodernist critiques agger shows how the social science text reproduces the existing social world suppressing science s author in order to position itself as simply a mirror of nature not a deliberate human version replete with ontology theory values and politics as such method is an argument that polemicizes quietly for a certain view of the world agger peruses how science could be crafted differently acknowledging even embracing its authoriality while opening it to crosscurrents of other humanistic writing only by liberating sociology from the secret writing of science can its ineradicable humanity be realized but rather than dwelling on recent critiques this more than any other book looks ahead to a new way of doing science one that is simultaneously more scientific and humanistic its prescient view of how social science can take the lead in building a more democratic public sphere will make it a must read for every student and researcher

third edition includes updates pertaining to the arab spring social media and the global financial crisis as well as other matters

people overshare when they interact with others through the screens of computers and smartphones oversharing means to divulge more of their inner feelings opinions and sexuality than they would in person or even over the phone text messaging facebooking tweeting camming blogging online dating and internet porn are vehicles of this oversharing which blurs the boundary between public and private life this book examines these presentations of self acknowledging that we are now much more public about what used to be private the book concludes with reflections on the impact of oversharing on identity friendship sexuality family and democracy and suggests steps people can take to re establish the boundary between public and personal life

body problems addresses the relationship between the body and society in a fast food culture agger focuses on issues of food exercise work dieting and eating disorders fashion bariatric and cosmetic surgery and health he addresses a growing fundamental dilemma that we have ample access to abundant calories yet lead lifestyles and have jobs that for the most part do not enable us to expend those calories he proposes solutions both individual and structural that involve re orienting ourselves to exercise as play this second edition has been updated to include a new chapter on food capitalism and a concluding passage arguing cartesian dualism can be resolved by exercising vegans in ways that would thwart

this food capitalism and give people immense control over their bodies health and well being the book is ideal for courses in introductory sociology social problems work sociology of sport and leisure gender and health and illness

the virtual self is an engaging and exciting text that addresses issues relating to our rapidly changing society social structure and communication needs in doing so it addresses major issues in sociology that inform virtually all of a student s course work introduces students to concepts of the self and society in an age of rapid technology and high speed communication examines the relationship between everyday life and social structure in key domains of communication personality work family leisure and entertainment and economics written in a lively engaging style for readers without a sociological background

this edited volume highlights the work of ten forgotten and neglected social theorists in the hope of reinvigorating interest in their work and their potential contributions to the analysis of contemporary social issues each chapter includes a brief biographical sketch an overview of the selected theorist s work and significance and the relevance of their work to one or more contemporary social issues while other similar texts tend to focus primarily on intellectual biography our emphasis here is on the scholar s theories and their application to contemporary social issues we provide a contextualization of each scholar s work using present day social issues or problems many of these individuals played a significant role in the development of sociology our hope is to provide a resource that will help re integrate these marginalized social theorists rescuing them from obscurity and elevating their status

this book examines the contemporary era where parents complain that children today don t do their homework because they are distracted by the internet texting and video games texting toward utopia presents the writings of todays children and develops the argument that this is actually a time of mass literary in which young people write furiously albeit often below the adult radar agger argues that where texting replaces textbooks the writing may be emoticon laden slangy or terse but it is still profound as children and their parents engage in resistance and write for a better world this book is a guide to understanding the meeting point between a new generation of children and new communication technologies

schools theatres and malls used to be safe havens marathons were triumphal not tragic today public life is risky citizens are on edge either calling for gun control or purchasing personal weapons of self defense in this timely book prominent us and international authors examine gun violence in public life they offer the latest data and analysis on topics such as comparative gun homicide rates the efficacy of gun control risks associated with gun ownership concealed carry data and policy media and gaming violence gender and guns and school shootings new insights are developed from a comparative case study of canada a country in which gun

ownership is common but with a much lower rate of gun violence neither demonising nor mythologising guns the contributors provide evidence based analyses that shed light on policy directions and personal conduct
