correctional psychiatry has received increasing recognition as an area of practice with unique skills and knowledge the oxford textbook of correctional psychiatry brings together american and international experts to provide a comprehensive overview of the field students and psychiatric residents will find basic information that prepares them for clinical rotations and psychiatrists working in jails and prisons will find a detailed review of the complex issues that arise in these settings the oxford textbook of correctional psychiatry contains 71 chapters divided into 14 sections the first three sections address history structure and processes including chapters on case law human rights ethics organization and funding of systems and stages of patient management that cover initial assessments through re entry the next three sections review in turn a broad array of management issues emergencies and psychopharmacology topics among other topics these sections include chapters on sleep detoxification reassessment of community diagnoses and treatments diversion programs levels of care malingering substance use within facilities

and formulary management section seven has chapters on common psychiatric disorders relevant medical disorders and pain management sections eight through ten focus on psychotherapeutic options suicide risk management and addictions treatment chapters on aggression self injury and other behavioral challenges appear in section eleven section twelve reviews unique assessment and treatment needs of many distinct population groups special topics such as forensics psychological testing sexual assaults quality improvement training and research appear in section thirteen followed by a section devoted to current resources in correctional healthcare the range of topics covered and the number of prominent contributors set this book apart from other available resources readers at all stages of their careers will gain the depth of understanding and practical information they need to approach all of the common clinical organizational and ethical challenges they face

the 15 years since publication of the second edition of the american psychiatric association's task force report on psychiatric services in correctional facilities have seen increasing rates of incarceration of mentally ill individuals continuing criminalization of substance use disorders and a lack of accessible and appropriate care in the community the purpose of the new edition psychiatric services in correctional facilities and the aim of the work group that authored it over many years of research dialogue and development is to provide leadership in addressing the needs of the often disenfranchised population of the incarcerated and to provide guidance to mental health clinicians working in correctional settings urging an expanded role in leadership and advocacy the work group members present the foundational principles that apply to providing care in correctional facilities outline the basic types of services that should be provided and apply the principles and guidelines previously established to specific disorders patient populations treatment modalities and special needs working with these patients and in these settings presents particular challenges that clinicians are unlikely to have encountered elsewhere in practice such as the use of seclusion and restraint and administrative issues psychiatric services in correctional facilities provides critical guidance and support for mental health professionals operating in this often frustrating environment enabling them to provide both effective treatment and informed advocacy for their patients

the long awaited report of the apa's work group to revise the apa guidelines on psychiatric services in correctional facilities psychiatric services in correctional facilities comes at a time of growing incarceration rates more rigid sentencing policies harsher sanctions and tougher public attitudes toward crime the result is a near doubling of the incarcerated population since the first report was issued in 1989 and a significant increase of inmates with serious mental health issues the work group members address the implications of this troubling state of affairs for psychiatrists and other mental health practitioners who diagnose and treat within the correctional environment on the basis of extensive input from multiple sources and perspectives they have developed clear guidelines that equip clinicians to navigate the special challenges they face this edition has been thoroughly updated and is structured to flow from the foundational principles that govern the delivery of psychiatric care in correctional facilities to the guidelines for screening referral evaluation treatment and community reentry planning to special applications of the principles and guidelines to specific disorders syndromes patient populations housing locations treatment modalities and inmate special needs readers will find the book well written with clear guidance for the clinician as well as challenges to think beyond the needs of individual patients to the larger relationship between mental illness and incarceration approximately three of every four incarcerated people with a serious mental illness have a co occurring substance use disorder complicating both diagnosis and treatment the book offers strategies for treating co occurring disorders and explores the need for evidence based screening tools because some inmate populations have unique evaluation and treatment needs because of their disorders demographics or other

characteristics separate sections are devoted to women youths in adult correctional facilities geriatrics lesbian gay bisexual and transgender patients veterans and patients with intellectual and developmental disabilities new management and programmatic topics include hospice mental illness and segregation seclusion and restraint telepsychiatry and the spiritual lives of inmates the appendix is a valuable resource that includes a selection of apa position statements on topics relevant to psychiatric services in correctional settings such as capital punishment access to care for transgender and gender variant individuals and the adjudication of youths as adults in the criminal justice system correctional psychiatry is an evolving field and serious questions remain the work group sees an expanded role for clinicians as physician leaders managers and directors more effectively advocating for their patients and helping to shape optimal care delivery systems that empower patients and support successful transition back to the community psychiatric services in correctional facilities provides the current knowledge and professional support clinicians need to meet these challenges

the first practical clinical guidebook on correctional mental health care that uses hypothetical case vignettes to illustrate important points the handbook of correctional mental health is designed to assist mental health professionals in providing effective care to inmates and understanding both the unique living environment and stressors faced by inmates in a variety of correctional settings and the legal context in which they provide that care each of 12 fascinating chapters written by 26 recognized experts is clearly organized by overview clinical case vignette and key summary points following the individual from arrest through probation the handbook of correctional mental health combines basic background information for providers new to the world of corrections with more advanced material for seasoned correctional providers covering topics such as medication management malingering developmentally disabled inmates female inmates and the complex legal issues regarding the unique and separate constitutional standard of care within correctional settings incorporating various viewpoints on potentially controversial issues and including extensive legal and clinical references that reflect current trends in correctional psychiatry the handbook of correctional mental health has a broad multidisciplinary scope and will appeal to psychiatrists and psychologists social workers nurses attorneys and judges and correctional officers and administrators

this collaborative text addresses the full range of issues faced by correctional psychologists and other mental health service providers who offer programs and services within correctional institutions from critical program development and management issues to specific treatment options for special populations

this highly accessible volume tours the competencies and challenges relating to contemporary mental health service delivery in correctional settings balancing the general and specific knowledge needed for conducting effective therapy in jails and prisons leading experts present eclectic theoretical models current statistics diagnostic information and frontline wisdom evidence based practices are detailed for mental health assessment treatment and management of inmates including specialized populations women youth and offenders with specific pathologies sexual offenders psychopaths and readers are reminded that correctional psychology is in an evolutionary state adapting to the diverse needs of populations and practitioners in the context of reducing further offending included in the coverage assessing and treating offenders with mental illness substance use disorders in correctional populations assessing and treating offenders with intellectual disabilities assessing and treating those who have committed sexual offenses self harm suicidality in corrections correctional staff the issue of job stress the practice of correctional psychology will be of major interest to psychologists social workers and master s level clinicians and students who work in correctional institutions and

settings with offenders on parole or probation as well as other professionals within the correctional system who work directly with offenders such as probation officers parole officers program officers and corrections officers

a two volume handbook that explores the theories and practice of correctional psychology with contributions from an international panel of experts in the field the wiley international handbook of correctional psychology offers a comprehensive and up to date review of the most relevant topics concerning the practice of psychology in correctional systems the contributors explore the theoretical professional and practical issues that are pertinent to correctional psychologists and other professionals in relevant fields the handbook explores the foundations of correctional psychology and contains information on the history of the profession the roles of psychology in a correctional setting and examines the implementation and evaluation of various interventions it also covers a range of topics including psychological assessment in prisons specific treatments and modalities as well as community interventions this important handbook offers the most comprehensive coverage on the topic of correctional psychology contains contributions from leading experts from new zealand australia europe and north america includes information on interventions and assessments in both community and imprisonment settings presents chapters that explore contemporary issues and recent developments in the field written for correctional psychologists academics and students in correctional psychology and members of allied professional disciplines the wiley international handbook of correctional psychology provides in depth coverage of the most important elements of the field

recent surveys demonstrate a high and possibly increasing prevalence of mental disorders in prisoners they have an increased risk of suffering from a mental disorder that transcends countries and diagnoses ethical dilemmas in prison psychiatry arise from resource allocation and include issues of patient choice and autonomy in an inherently coercive environment ethical conflicts may arise from the dual role of forensic psychiatrists giving raise to tensions between patient care protection of the public this book describes models and ethical issues of psychiatric healthcare in prison in several countries relevant issues are the professional medical role of a psychiatrist and or psychotherapist working in prison the involvement of psychiatrists in disciplinary or coercive measures consent to treatment the use of coercion in forcing a prisoner to undergo treatment hunger strike confidentiality the book ends with consensus guidelines concerning good practice in prison psychiatry
