the persistent potential for large scale natural disasters has become a real concern for the turkish government since the late 1990s which ultimately led to the establishment of the turkish catastrophe insurance pool tcip among the main rationale of the creation of the tcip were a grave government fiscal exposure to natural disasters and a disproportionately low level of catastrophe insurance penetration for such a disaster prone country since the commencement of this program in 2000 the tcip has provided coverage to more than 2 million households being by far the largest insurance program in the country in four years the tcip has managed to become one of the most trusted brand names in the turkish insurance industry and one of the largest catastrophe insurance pools in the world its success has also brought an international recognition inspiring more than a dozen of countries world wide the tcip experience has also been a

watershed for the world bank as it has led to a rethinking of the roles of ex ante risk management relative to ex post donor support this book presents the main technical imperatives and challenges in the development and the implementation of the tcip and shows how a public private partnership may be the way forward in the financing of natural disasters if offers valuable advise and guidelines to policymakers involved in the development of catastrophe insurance programs

this book explores the significance of turkey s blue homeland mavi vatan naval concept which defines its maritime rights and interests in the surrounding seas aegean sea black sea and the mediterranean the concept has a powerful socialized definition and a popular appeal across the political spectrum in turkey with important implications for security in the wider middle east the book investigates the impact of geopolitics and domestic political factors on the concept and uncovers motivations behind its trajectory since 2004 with a particular focus on the last several years the period when turkey s naval assertiveness reached its peak following the failed coup attempt in 2016 based on in depth interviews with diplomats naval officers academics and researchers in the field the book takes the reader through a journey on how the turkish government has reinforced an activist policy since 2016 due to pressures of regional insecurity domestic coalition logrolling and nationalist sentiment

today s global economy offers more opportunities but is also more complex and competitive than ever before this fact leads to a wide range of research activity in different fields of interest especially in the so called high tech sectors this book is a result of widespread research and development activity from many researchers worldwide covering the aspects of development activities in general as well as various aspects of the practical application of knowledge

the global community has spoken loud and clear more resources must be mobilised to end extreme poverty and mitigate the effects of climate change blended finance is emerging as an important solution to help raise resources in support of the sustainable development goals in developing countries

the objective of this book is to bring together contributions by eminent researchers from industry and academia who specialize in the currently separate study and application of the key aspects of integration the state of knowledge on integration and collaboration models and methods is reviewed followed by an agenda for needed research that has been generated by the participants the book is the result of a nato advanced research workshop on integration information and collaboration models that took place at ii ciocco italy during june 1993 significant developments and research projects have been occurring internationally in a major effort to integrate increasingly complex systems on one hand advancements in computer technology and computing theories provide better more timely information on of users and clients and the the other hand the geographic and organizational distribution proliferation of computers and communication lead to an explosion of information and to the demand for integration two important examples of interest are computer integrated manufacturing and enterprises cim e and concurrent engineering ce cim e is the collection of computer technologies such as cnc cad cam robotics and

computer integrated engineering that integrate all the enterprise activities for competitiveness and timely response to changes concurrent engineering is the complete life cycle approach to engineering of products systems and processes including customer requirements design planning costing service and recycling in cim e and in ce computer based information is the key to integration
