u2 were formed at a dublin secondary school by adam clayton bono the edge and larry mullen jr like most bands they wanted to be among the best in the world by 1991 with achtung baby in the pipeline and war the unforgettable fire and the joshua tree behind them

they were arguably deserving of that intention yet there was more to the band than the stadium records that made their fans deliriously happy and the music's creators artistically and lucratively fulfilled their second album. October opened the four piece into a spiritual journey that fed their later work. Their double album *Rattle and Hum* proved one of the greatest torchbearers of American music of its time and then there were *Zooropa* and pop dance oriented albums that showed the initially punk oriented quartet exploring effects, sounds and territories that few of their contemporaries dared contemplate that they should exist forty years after their debut. It is testament to the will, fortitude and versatility U2 hold their most recent works. Songs of Innocence and Songs of Experience have proven their most reflective and perhaps their most autobiographical. What lies next for U2 only the band know but this book delves into their past work without leaving a passenger behind. The author Eoghan Lyng is a music writer and pop fanatic having spent a life listening to idiosyncratic pop. Lyng honed this fascination into something more tangible. His writing credits include *New Sounds*, *We Are Cult*, *Culture Sonar*, *The Phacemag*, *DMovies*, *The Irish Post* and *The Digital Fix*. He has interviewed Pete Best, Denny Laine, Jeff Wayne, Rat Scabies, Eric Stewart, Chris Thomas, Kristin Hersh, Arthur Matthews and Ian La Frenais. Lyng intends to continue his musical journey by exploring new and exciting artists without losing interest in the bands that have led him here. He lives in Dublin, Ireland.

Canons are central to our understanding of our culture and yet in the last thirty years there has been much conflict and uncertainty created by the idea of the canon. In essence the canon comprises the works and artists that are widely accepted to be the greatest in their field. Yet such an apparently simple construct embodies a complicated web of values and mechanisms. Canons are also inherently elitist. However Carys Wyn Jones here explores the emerging reflections of values, terms and mechanisms from the canons of Western literature and classical music in the reception of rock music. Jones examines the concept of the canon as theorized by scholars in the fields of literary criticism and musicology before moving on to search for these canonical facets in the reception of rock music as represented by ten albums: Bob Dylan's *Highway 61 Revisited*, The Beach Boys' *Pet Sounds*, The Beatles' *Revolver*, The Velvet Underground's *The Velvet Underground*, Nico Van Morrison's *Astral Weeks*, Marvin Gaye's *What's Going On*, The Rolling Stones' *Exile on Main St.*, Patti Smith's *Horses*, The Sex Pistols' *Never Mind the Bollocks Here's the Sex Pistols* and Nirvana's *Nevermind*. Jones concludes that in the reception of rock music we are not only trying to organize the past but also mediate the present and any canon of rock music must now negotiate a

far more pluralized culture and possibly accept a greater degree of change than has been evident in the canons of literature and classical music in the last two centuries
