featuring letters to his wife orders daily accounts of battle written during world war ii and his published memoirs rommel offers an insight into a great military leader alongside accounts of fighting in world war i and world war ii rommel shares his views on the philosophy of warfare battles leaders and the progress of both world wars

a biography of the wwii military genius known as the desert fox and his complex ultimately fatal relationship with hitler from a new york times bestselling author born leader brilliant soldier devoted husband and father erwin rommel was intelligent brave and compassionate while at the same time vain egotistical and arrogant in france in 1940 then for two years in north africa then at normandy in 1944 he proved himself a master of armored warfare running rings around a succession of allied generals who never got his measure and could only resort to overwhelming numbers to defeat him yet for all his genius rommel was also naive a man who could admire adolf hitler at the same time that he despised the nazis dazzled by a führer whose successes blinded him to the true nature of the third reich above all he was the quintessential german patriot who ultimately would refuse to abandon his moral compass so that on one pivotal day in june 1944 he came to understand that he had mistakenly served an evil man and evil cause he would still fight for germany even as he abandoned his oath of allegiance to the führer when he came to realize that hitler had morphed into nothing more than an agent of death and destruction in the end erwin rommel was forced to die by his own hand not because as some would claim

he had dabbled in a tyrannicidal conspiracy but because he had committed a far greater crime he dared to tell adolf hitler the truth in field marshal new york times bestselling historian daniel allen butler describes the swirling innovative campaigns in which rommel won his military reputation and assesses the temper of the man who finally fought only for his country and no dark depths beyond

erwin rommel was the outstanding axis field commander of the second world war respected even admired by his opponents here it seemed to the allies was a supremely professional soldier chivalrous decent largely untainted by the crimes of the nazi regime carrying out his duty with often dazzling success david fraser s definitive study brings to rommel s career not only the insights of an acclaimed biographer but also those of a distinguished soldier he shows how inspiringly spontaneous and superficially haphazard rommel s style of leadership could be how his hallmarks of boldness of manoeuvre ferocity in attack and tenacity in pursuit which characterised his great campaign in north africa were evident from his earliest battles in the first world war knight s cross is first and foremost hte biography of a soldier but rommel reached a position in which he almost inevitably became embroiled in politics including his alleged involvement in the plot to kill hitler which condemned him in the eyes of the fuhrer he had served so loyally rommel is not to david fraser a flawless hero his failing as well as his genius are recorded here but he had that instinct for battle and leadership which set him apart from contemporaries and places him among the truly great commanders of history

nicknamed the desert fox for his cunning command of the afrika korps erwin rommel remains one of the most popular and studied of germany s world war ii commanders he got his first taste of combat in world war i where his daring command earned him the blue max germany s highest decoration for bravery he followed this up with numerous successes early in world war ii in both europe and africa before facing his biggest challenge organizing the defence of france implicated in the plot to kill hitler rommel chose suicide over a public trial this book looks at the life of this daring soldier focusing on his style of command and the tactical decisions that earned him his fearsome reputation

nicknamed the desert fox for his cunning command of the afrika korps erwin rommel remains one of the most popular and studied of germany s world war ii commanders he got his first taste of combat in world war i where his daring command earned him the blue max germany s highest decoration for bravery he followed this up with numerous successes early in world war ii in both europe and africa before facing his biggest challenge organizing the defence of france implicated in the plot to kill hitler rommel chose suicide over a public trial this book looks at the life of this daring soldier focusing on his style of command and the tactical decisions that earned him his fearsome reputation

general erwin rommel s death and cremation is recorded as taking place in germany this book is about his death and burial actually happening in the british protectorate of nyasa land which is now called malawi it was to here rommel escaped in october 1944 from germany using the pseudonym of meyer in africa rommel left behind a secret family first in south africa and then in malawi evidence presented in this book has now connected the outstanding similarity of seven different events recorded over an 18 year period they include evidence given by reliable different sources and still

living family members the most credible and compelling interview included is with a british barrister at law proposals for the ultimate scientific evidence of erwin rommel s final resting place are presented in the book s conclusion

written directly after combat rommel critiques his own battle strategies and tactics during world war i in an attempt to learn further from his losses and victories

includes pictures includes rommel s quotes about his life and the war includes online resources and a bibliography for further reading be an example to your men in your duty and in private life never spare yourself and let the troops see that you don t in your endurance of fatigue and privation always be tactful and well mannered and teach your subordinates to be the same avoid excessive sharpness or harshness of voice which usually indicates the man who has shortcomings of his own to hide erwin rommel one of his biographers called him a complex man a born leader a brilliant soldier a devoted husband a proud father intelligent instinctive brave compassionate vain egotistical and arrogant as that description suggests every account of erwin rommel s life must address what appears to be its inherent contradictions fittingly and in the same vein he remains one of the best remembered generals of world war ii and history at large despite the fact he was on the losing side and he was defeated at the most famous battle of his career the decisive battle of el alamein nonetheless the desert fox has been a legend on both sides of the atlantic for over 70 years thanks to the crucial role he played in history s deadliest conflict before his legendary encounters against the british and americans in north africa rommel gained much fame for his role in the invasions of poland and france before was sent to north africa in february 1941 in describing rommel the italian officer alessandro predieri talked about his two very rare and precious gifts the first is luck which you will remember napoleon prescribed to his generals the second gift is that of being able to keep his bearings in the midst of all the confusion of modern desert warfare his instinct tells him immediately where a difficult situation is going to develop and off he goes with his kampfstaffel headquarters group which he treats like a praetorian guard and puts things right charging around like a junior officer with the axis forces trying to push through egypt towards the sues canal and the british mandate of palestine american forces landed to their west in north africa which ultimately compelled rommel to try to break through before the allies could build up and overwhelm them with superior numbers the second battle of el alamein was a turning point in the two year conflict between allied forces and a combined german italian force in north africa while the scale of the battle paled in comparison to the battles of the eastern front where the majority of german troops were concentrated it still marked an important victory in world war ii especially from the british perspective after leaving north africa rommel spent much of the later part of the war strengthening german defenses across the atlantic in anticipation of an amphibious allied landing which would come in june 1944 but the murky role he played in the notorious july 20 plot on adolf hitler s life in 1944 the closest an assassination attempt got to killing the nazi fuhrer would bring about the desert fox s untimely demise in october 1944 even as the soviets and western allies were tightening the vise on germany compelled to take cyanide by authorities the desert fox insisted he was innocent until his dying day and his popularity forced the nazi government to claim his death was brought about by a heart attack or a cerebral embolism in fact rommel was given an official state funeral and winston churchill would go on to praise him he also deserves our respect because although a loyal german soldier he came to hate hitler and all his

works and took part in the conspiracy to rescue germany by displacing the maniac and tyrant for this he paid the forfeit of his life

this study focuses on the operational level of war that level which links tactics to strategy the study seeks to identify and define principles applicable to the operational level of war if valid those principles ought to guide and or govern the conduct of war at the operational level also understanding of operational principles and the theoretical foundations of the operational level of war can assist us army commanders and staff officers in preparation for and conduct of war at that level selected campaigns and battles conducted by erwin rommel and bernard montgomery during world war ii are analyzed the objective of the analyses is to determine what each commander considered as guides in making battlefield decisions the research is not limited however to specific campaigns and battles a description of each commander is offered that is his experiences and the evolution of his military thought the prevailing german and british military doctrines are also reviewed interestingly the criteria each commander used in making battlefield decisions his operational principles are apparent by understanding the man and the doctrine the campaign and battle analyses serve to substantiate those principles while rommel and montgomery represented different styles of war fighting maneuver and attrition respectively they demonstrated a remarkable commonality in battlefield decision making apparently the operational level of war can accommodate a broad range of war fighting styles and instruments the implications for the us army derived from this study cover a wide range of subjects some involve organization training and preparation of operational level commanders and staff officers most important is the development of an army which can successfully fight the campaigns and battles in future war

how should history judge the life and career of erwin rommel the most famous german general of the second world war 70 years after his death on 14 october 1944 in his own time and in the years immediately after the war his reputation as a great and chivalrous commander grew to the point where it took on almost legendary proportions and the legend is still with us today his support for the plot to remove hitler from power in 1944 and the manner of his death committing suicide in order to protect his family from nazi retribution further enhanced his image as an honorable professional soldier but does he deserve this legendary status can his exploits as a soldier and commander and his conduct of the war be separated from the aggressive aims of hitler and the nazis whom he and the german army served these are among the key questions ian beckett and his team of expert contributors seeks to answer in this stimulating and timely study of rommel and his legacy

field marshal erwin rommel exerted an almost hypnotic influence not only over his own troops but also over the allied soldiers of the eighth army in world war ii even when the legend surrounding his invincibility was overturned at el alamein the aura surrounding rommel himself remained unsullied in this classic study of the art of war rommel analyzes the tactics that lay behind his success

this volume traces the career of the man who was to become the legendary desert fox marking him as one of the finest military men of the 20th century it also reveals his faults and the sad end to his life when he chose suicide rather than a show trial when accused of plotting against hitler

erwin rommel is the best known german field commander of world war ii

repeatedly decorated for valor during the first world war he would go on to lead the german panzer divisions in france and north africa even his british opponents admitted to admiring his apparent courage chivalry and leadership and he became known by the nickname desert fox his death in october 1944 would give rise to speculation for generations to come on how history should judge him to many he remains the ideal soldier but as reuth shows rommel remained loyal to his führer until forced to commit suicide and his fame was largely a creation of the master propagandist joseph goebbels stripping away the many layers of nazi and allied propaganda reuth argues that rommel s life symbolizes the complexity and conflict of the german tragedy to have followed hitler into the abyss and to have considered that to be his duty

take a journey to europe and north africa behind the camera of famed wwii military commander field marshal rommel view him and his german and italian troops from his private photos seized by u s forces in 1945 over 200 photos show erwin rommel s men at work at leisure on the move and with him

great military leaders a bibliography with vignettes
