seminar paper from the year 2018 in the subject economics innovation economics grade 1 0 lmu munich language english abstract this paper is a review of manso s paper motivating innovation and is structured as follows after summing up the theoretical and empirical results the ambiguous effects of job security will be critically discussed afterward it will be commented on some assumptions made in this paper while suggesting further novel research finally the main findings of manso will be stated in the age of disruptive technologies and business models the most crucial factor innovation is moving more and more into the focus of attention of society as leading innovative countries set the baron efficient solutions higher the determinants stay somewhat nebulous while zahra and covin 1994 suggest that innovation is widely considered as the lifeblood of corporate survival and growth bessant et al 2005 emphasize a more general definition innovation represents the core renewal process in any organization the latter statement suggests that innovation is not solely important for business organizations but rather for any kind of complex institutions while the usa emphasized the significance of innovation by launching the department of innovation alreadyin 2008 germany has increased the public funding of research and development by 0 5 percentage points to 3 5percent in the new coalition agreement in 2018 the department of trade of the uk exemplifies the relevance of accumulated innovation within a country many scientists have researched on the subject innovation so do aghion and tirole 1994 argue that the outcomes of innovation are unclear ergo it is difficult to find a cohesive contract which motivates innovation whereas the latter paper is studying the measurability of innovation manso s article looks closely at the process of innovation and focuses on the central trade off between exploration and exploitation moreover weitzman 1979 uses a simple bandit problem to describe the innovation process the substantial difference to motivating innovation is that manso does not only study individual decision problems but also complements the agent by the principal to embed the bandit problem into a principal agentframework the principal agent setting allows him to inquire the tension between exploration and exploitation under a more realistic contract in which the agent usually exhibits private costs when receiving tasks from the principal

this book presents a series of papers that explore the extent to which technological innovation can lower the cost of achieving climate change mitigation objectives

it was faraday who in 1821 said that there are three necessary stages of useful research the first to begin it the second to end it and the third 1 to publish it there has since indeed been so much research and publication that we have become increasingly alarmed by the galloping proliferation of scientific information produced in relation to the user s ability to retrieve and consume it effectively conveniently and creatively in 1948 to deal with this concern the royal society scientific information conference held in london spanned the whole realm of scientific information sir robert robinson president of the royal society in his opening address noted that the study of scientific information services in all its ramifications has enormous scope and the london conference dealt with scientific publication format editorial policy subject grouping organization abstracting reviews classification indexing and training of information officers it was about this time that

information science began to develop more on the retrieval end so it seems logical that the first editors group founded in 1949 was icsu ab the international council of scientific unions abstract ing board in 1958 the national academy of sciences international conference of 2 scientific information in washington limited its interests and expanded on the later phases of the life cycle of information storage and retrieval

after a half century of transformative economic progress that moved hundreds of millions of people out of poverty countries in developing east asia are facing an array of challenges to their future development slowed productivity growth increased fragility of the global trading system and rapid changes in technology are all threatening export oriented labor intensive manufacturing the region s engine of growth significant global challenges such as climate change and the covid 19 pandemic are exacerbating economic vulnerability these developments raise questions about whether the region s past model of development can continue to deliver rapid growth and poverty reduction against this background the innovation imperative in developing east asia aims to deepen understanding of the role of innovation in future development the report examines the state of innovation in the region and analyzes the main constraints that firms and countries face to innovating it assesses current policies and institutions and lays out an agenda for action to spur more innovation led growth a key finding of the report is that countries current innovation policies are not aligned with their capabilities and needs policies need to strengthen the capacity of firms to innovate and support technological diffusion rather than just invention policy makers also need to eliminate policy biases against innovation in services a sector that is growing in economic importance moreover countries need to strengthen key complementary factors for innovation including firms managerial quality workers skills and finance for innovation countries in developing east asia would also do well to deepen their tradition of international openness which could foster openness in other parts of the world doing so would help sustain the flows of ideas trade investment and people that facilitate the creation and diffusion of knowledge for innovation

an overview of issues relevant to debates about solutions to global challenges such as climate change public health and food security

the oecd science technology and innovation outlook 2018 is the twelfth edition in a series that biennially reviews key trends in science technology and innovation sti policy in oecd countries and a number of major partner economies the 14 chapters within this edition look at a range of

chemistry and mode of action of natural products active against pests the control of tropical pests and vectors of economic importance requirements for pesticide production and utilization the need for trained scientists and technologists
