the tenth study in a series of national surveys to measure the prevalence of drug use among the american household population aged 12 and over over 9 000 households were interviewed covers marijuana cocaine crack inhalants hallucinogens any psychotherapeutics stimulants sedatives tranquilizers analgesics alcohol cigarettes smokeless cigarettes pcip heroin and needle use

growing inequalities in europe are a major challenge threatening the sustainability of urban communities and the competitiveness of european cities while the levels of socio economic segregation in european cities are still modest compared to some parts of the world the poor are increasingly concentrating spatially within capital cities across europe an overlooked area of research this book offers a systematic and representative account of the spatial dimension of rising inequalities in europe this book provides rigorous comparative evidence on socio economic segregation from 13 european cities cities include amsterdam athens budapest london milan madrid oslo prague riga stockholm tallinn vienna and vilnius comparing 2001 and 2011 this multi factor approach links segregation to four underlying universal structural factors social inequalities global city status welfare regimes and housing systems hypothetical

segregation levels derived from those factors are compared to actual segregation levels in all cities each chapter provides an in depth and context sensitive discussion of the unique features shaping inequalities and segregation in the case study cities the main conclusion of the book is that the spatial gap between the poor and the rich is widening in capital cities across europe which threatens to harm the social stability of european cities this book will be a key reference on increasing segregation and will provide valuable insights to students researchers and policy makers who are interested in the spatial dimension of social inequality in european cities chapters 1 and 15 of this book are freely available as downloadable open access pdfs at taylorfrancis.com under a creative commons attribution non commercial no derivatives cc by nc nd 3.0 license

cambridge vce health and human development units 1 & 2 second edition develops the knowledge necessary for vce success

aging health and longevity in the mexican origin population creates a foundation for an interdisciplinary discussion of the trajectory of disability and long term care for older people of mexican origin from a bi national perspective although the literature on latino elders in the united states is growing few of these studies or publications offer the breadth and depth contained in this book

health geographers are well situated for undertaking population health intervention research and have an opportunity to be at the forefront of this emerging area of inquiry however in order to advance this the scientific community needs to be innovative with its methodologies theories and ability to think critically about population health issues for example using alternatives e.g. community based participatory research to traditional study designs such as the randomised control trial health geographers can contribute in important ways to understanding the complex relationships between population health both intended and unintended consequences interventions and place representing a diverse array of health concerns ranging across chronic and infectious diseases and research employing varied qualitative and quantitative methodologies the contributions to this book illustrate how geographic concepts and approaches have informed the design and planning of interventions and or the evaluation of health impacts for example the authors argue that geographically targeting interventions to places of high need and tailoring interventions to local place contexts are critically important for intervention success including an afterword by professor louise potvin this book will appeal to researchers interested in population and public community health and epidemiology as well as health geography
