prof cnr rao is a living legend einstein paid a compliment to mahatma gandhi on his 70th birthday he said generations to come it may well be will scarce believe that such a man as this one ever in flesh and blood walked upon this earth at prof rao s 85th birthday i would like to repeat these words prof rao is not an individual he is an

institution he is a phenomenon i feel lucky that our generations could see him touch him feel him experience him learn from him and get inspired by him i have watched prof rao as a scientist as a science leader as a science institution builder and indeed as a leader of leaders of science i have also watched him as a wonderful warm hearted human being with abundance of empathy i have seen his child like enthusiasm i have watched him as courage personified dr r a mashelkar frs national research professor

available for bundling with rao s text this unique companion shows in great detail how to use sas to do the statistics described in the text written specifically to complement and enhance the sas material in the book the sas companion uses the same examples used in the text providing instructions and output for all textual examples the sas companion is an essential tool and a handy reference for students as they work through the books computing assignments

most canadians believe that their experiences of health and illness are shaped by genetics medical care and lifestyle choices governments the media and disease associations reinforce this perception by pointing to medical research and a healthy lifestyle as the keys to health about canada health and illness tells a different story in this new updated edition dennis raphael shows that living and working conditions income employment and quality of education as well as access to food housing and social services the social determinants of health are what dictate the health of canadians and these social determinants are shaped by the public policy decisions of canadian governments whether you stay healthy or become ill has more to do with policies laws and regulations than genetics or lifestyle over the past thirty years policymakers operating under the influence of neoliberalism have threatened health by allowing the growth of corporate power which has led to growing inequality in these social determinants of health this book is a wake up call to canadians public pressure needs to be put on elected representatives to create policies that are in the interest of the majority of canadians not just the wealthy
