how are christians to understand and undertake the discipline of psychology this question has been of keen interest because of the importance we place on a correct understanding of human nature this collection of essays edited by eric johnson and stanton jones offers four different models for the relationship between christianity and psychology

this collection of essays edited by eric johnson and stanton jones offers four different models for the relationship between christianity and psychology

the psychology of christian character formation offers clergy and those preparing for ministry some of the potential riches provided by

rapidly developing branches of contemporary scientific psychology of which they might otherwise be unaware joanna collicutt an experienced psychologist and theological educator focuses on the psychology of character virtue and spirituality furthermore the psychology is not used to support training in pastoral ministry to others but rather to support the reader s own self awareness and spiritual growth joanna collicutt understands christian formation as christian communities and their members growing up into conformity with the character of christ through the action of the holy spirit this is explored in the three parts of the book first an exploration of the process of christian formation that includes a detailed analysis of the character of jesus of nazareth secondly some focused psychology aimed at supporting an informed self awareness in the reader finally and the most lengthy section a series of chapters devoted to using psychological insights to help cultivate the christ like characteristics identified in the first section

this book follows the standard progression of introductory psychology texts and adds a christian perspective that contributes needed diversity to the study of the mind and behavior topics range from esp to moral development each chapter provides an introduction and overview of a given theme a discussion of issues an exploration of how psychological and biblical perspectives might be complementary and a recap with suggested readings

introductory psychology courses can raise significant questions about the nature of being human christianity with its emphasis on humans made in the image of god has a clear perspective psychology offers answers too but they are often subtly implied this introductory guide drawn from more than fifty years of classroom experience provides students with a coherent framework for considering psychology from a christian perspective the authors explore biblical themes of human nature in relation to all major areas of psychology showing how a christian understanding of humans can inform the study of psychology brief accessible chapters correspond to standard introductory psychology textbooks making this an excellent supplemental text end of chapter questions are included a test bank for professors is available through baker academic s textbook esources

is it possible to integrate scientific psychology with a christian understanding of human nature are science and religion locked in an inevitable conflict or is there an underlying harmony between these two sources of knowledge about humans this book goes to the heart of the past and present dialogue between christianity and psychology comparing three models that have been used to describe the relationship between them because christianity and psychology deal with different levels of truth and speak vastly different languages efforts to unify them often create more problems than they solve what is needed is a better way to think about the relationship an approach that does justice to the emerging insights from psychological science and biblical scholarship and that can enrich our understanding of both in this volume two accomplished psychologists show how this complementary dialogue can unfold giving us a broader deeper understanding of ourselves our relationships and our place in the cosmos

since the first edition of integrative approaches to psychology and christianity was published in 2004 this has become the standard textbook on the topic now in its fully revised fourth edition dr entwistle s book elucidates historical philosophical and practical issues in the integration of psychology and christianity as in previous editions the current text provides an introduction to many of the worldview issues and philosophical foundations that frame the relationship of psychology and theology includes scholarly reflection on the integration literature and surveys six models of possible relationships between psychology and christianity ranging from those that are completely opposed to either religion or psychology to intermediate models that assert that some limited interaction between them is possible to viewpoints which suggest that a christian worldview approach can be used to provide a context for exploring areas of overlapping interest between psychology and christianity the current edition considers recent advances in both catholic and protestant thinking on integration including contemporary questions about what evangelicalism is and is not that shape evangelical reactions to the integration debate new content ranges from information about the contrasting views of tertullian and augustine to insights from contemporary psychology about factors that adversely affect the quality and reliability of human thinking to how conflict over covid 19 has entered contemporary religious debate the book is designed to help readers become aware of the presuppositional backdrops that each of us brings to these issues questions at the end of each chapter are included to help readers evaluate both the material and their own burgeoning approach to integration this book is ideal as a textbook for students of psychology and other behavioral and social sciences social work sociology theology counseling pastoral counseling at both the graduate and undergraduate level it is also written for the broader readership of psychologists counselors pastors and others who are interested in integration

i have known professor newton malony for more than forty years i have great respect for the way his mind works and the wise positions he takes he is at once stimulating and creative historically thorough and futuristically insightful i highly recommend any encounter with substantive material from his mind and pen neil clark warren founder and chairman eharmony com former dean school of psychology fuller theological seminary newton malony is an internationally recognized pioneer in the application of religious principles to clinical practice and research he is capable like few others of bridging professional differences and arriving at reasonable conclusions allen e bergin professor of psychology retired coauthor spiritual strategy for counseling and psychotherapy for newton malony psychology exists in the service of religion with the histories of the christian church and psychology as his backdrop malony holds fast to his religious values throughout this book making a case for the relevance of christianity to a broad range of issues in clinical psychology gordon nagayama hall professor of psychology university of oregon author multicultural psychology newton malony was a major force in reinventing the psychology of religion during the second half of the twentieth century this book highlights his contribution to clinical psychology in christian context malony s ideas go a long distance and this book is a wonderful collection and culmination of them raymond f paloutzian editor international journal for the psychology of religion coeditor handbook of the psychology of religion and spirituality this excellent collection of malony s contributions to the integration of christian faith and clinical psychology provides a rich and indispensable resource for scholars and students interested in psychology and the religious quest writing over many years about complex matters of emotional health

and spiritual life he has given us a gift that is accessible enjoyable and deeply relevant winston e gooden dean school of psychology fuller theological seminary what a treat it is to recommend this really solid collection that represents more than four decades of creative engagement with key issues in applied and professional psychology effective ministry in the context of the local church and some really fascinating musings by a senior spokesperson in the field richard butman professor of psychology wheaton college coeditor modern psychotherapies a christian appraisal

relational integration of psychology and christian theology offers an in depth interdisciplinary relational framework that integrates theology psychology and clinical and other applications building on existing models and debates about the relationship between psychology and theology the authors provide a much needed examination of the actual interpersonal dynamics of integration and its implications for training and clinical practice case studies from a variety of clinical and educational contexts illustrate and support the authors model of relational integration using an approach that is sensitive to theological diversity and to social context this book puts forward a theological and therapeutic framework that values diversity the repairing of ruptures and collaboration

can the phenomena of the human mind be separated from the practices of spiritual formation research into the nature of moral and spiritual change has revived in recent years in both the worlds of psychology and theology rooted in a year long discussion held by biola university s center for christian thought cct this volume bridges the gaps caused by professional specialization among psychology theology and philosophy

can real change happen in the human soul is it possible to have truly healthy relationships is psychology something that can help us see reality as god sees it john h coe and todd w hall tackle these and other provocative questions in this next volume of the christian worldview integration series which offers an introduction to a new approach to psychology that seeks to integrate psychology and spiritual formation this model represents a spiritual formation and relational approach to psychology for the sake of servicing the spiritual needs of the church their goal is to provide a unique model of doing psychology and science in the spirit here you will find an introduction to the foundations methodology content and praxis for this new approach to soulcare

this introduction to psychology has been devised for those training for and working in the clergy ideal both as a professional handbook and a textbook it covers social developmental educational occupational and counselling psychology as well as the psychology of religion it carefully considers the processes of personal change and growth central to religion

this book winsomely explores the significance of theology and the christian faith for the practice of psychology the authors demonstrate how psychology and the christian faith can be brought together in a mutually enriching lived practice helping students engage in psychology in

a theologically informed way each chapter includes introductory takeaways questions for reflection and discussion and resources for further study and reading

two psychologists address the challenges of cross cultural therapy and the promise of peaceable psychology

over the past century theories about personality have greatly increased our insight into ourselves we have greater knowledge and understanding of the unconscious of sexuality aggression the self personal relations the influence of childhood morality guilt dreams and so on but modern personality has little or nothing to say about any need for god in accounts of psychologists jung apart god is dead peter morea seeks to remedy this lack by combining the insights of scientific psychology and religion in an approach to the study of personality he takes six accounts of personality given by famous christians and presents them as significant theories in their own right relevant now using them to engage in dialogue with the variety of modern theories the christians he chooses are varied in time and approach augustine of hippo soren kierkegaard thomas merton blaise pascal teresa of avila and karl rahner after they have been studied peter morea examines the similarities and differences between scientific and christian theories of personality such as in their analysis of self then he considers the materialist assumptions behind scientific theories and in a subsequent chapter the different assumptions of christian accounts his conclusion is that those of christian theories are as reasonable as those behind science and that in spite of differences between the two the task of relating them has already begun with existential and humanistic psychology

this book discusses psychology and christianity and makes the argument that christian psychology is a possibility

this book will help you evaluate how you can effectively integrate prayer scripture confession forgiveness and redemption into your life and counseling practice part of a professional series by the american association of christian counselors

in this groundbreaking work of first order scholarship eric johnson makes a vitally important contribution to the field of christian counseling he first presents a detailed overview and appreciative but critical evaluation of the reigning paradigms in the field of christian counseling particularly biblical counseling and integration building on their respective strengths he seeks to move beyond the current impasse in the field and develop a more unified and robustly christian understanding drawing upon the bible and various christian intellectual and soul care traditions and through a christian reinterpretation of relevant modern psychological theory and research johnson proceeds to offer a new framework for the care of souls that is comprehensive in scope yet flows from a christian understanding of human beings what amounts to a distinctly christian version of psychology this book is a must read for any serious christian teacher student or practitioner in the fields of psychology or counseling

malcolm jeeves former editor in chief of neuropsychologia a leading international scientific journal in behavioral and cognitive neuroscience explores the intersection of science and faith in defining what it means to be human he reports on recent scientific research on consciousness and the link between mind brain and behavior he examines issues such as determinism by indicating the possible relevance of chaos theory to enduring concerns about freedom and responsibility he looks at similarities and differences between human nature and animal nature he reexamines traditional dualist views of soul and body in the light of contemporary research on mind and brain and argues for a wholistic model this leads to addressing questions such as does spiritual awareness depend on the intactness of our brains or does spirituality stand apart from our biological substrate
