imagine two worlds in one laws causal relations and mechanisms are stable in the other they are fragile and unreliable our actual world is a mixture of the two but for many of the things we care about most the relations that matter are fragile fragility means we cannot rely on a theory or model that worked in one case still working in another so it requires us to re establish what works each time science for a fragile world offers a novel re examination of theory and empirical investigation opening up a new view and path for scientific expertise chapters 1 and 2 offer an introduction and definition of the concept of fragility proposing that a relation is fragile if and only if it holds unpredictably enough following from this chapters 3 and 4 explore the importance of narrow scope empirical investigations and the methodological need for a case worker as opposed to a stability theorist approach chapters 5 7 further reflect on the unique challenge posed by the ubiquity of fragility for scientific methodology and the philosophy of science in the latter chapters northcott delves into the impact of fragility in key case studies economics big data and epidemiological modeling in the covid 19 pandemic cutting through the strictures of the classic scientific realist debate the volume concludes with a reevaluation of the role of expertise in a fragile world warning against grand unified theories northcott makes a thorough case for a science which emphasizes practical know how and informal knowledge as much as theory

north korea has posed a threat to stability in northeast asia for decades since kim jong un assumed power this threat has both increased and broadened since 2011 the small isolated nation has detonated nuclear weapons multiple times tested a wide variety of ballistic missiles expanded naval and ground systems that threaten south korea and routinely employs hostile rhetoric another threat it poses has been less recognized north korea presents a potentially greater risk to american interests by exporting its weapons systems to other volatile regions worldwide in north korean military proliferation in the middle east and africa bruce e bechtol jr analyzes relevant north korean military capabilities what arms the nation provides and to whom how it skirts its sanctions and how north korea s activities can best be contained he traces illicit networks that lead to state and nonstate actors in the middle east including syria iran hezbollah and hamas and throughout africa including at least a dozen nations the potential proliferation of nuclear

and chemical weapons technology and the vehicles that carry it including ballistic missiles and artillery represent a broader threat than the leadership in pyongyang including training and infrastructure support north korea s profits may range into the billions of dollars all concealed in illicit networks and front companies so complex that the nation struggles to track and control them bechtol not only presents an accurate picture of the current north korean threat he also outlines methodologies that washington and the international community must embrace in order to contain it
