the politics of writing islam provides a much needed critique of existing forms of studying writing and representing islam in the west through critiquing ethnographic literary critical psychoanalytic and theological discourses the author reveals the problematic underlying cultural and theoretical presuppositions mutman demonstrates how their approach reflects the socially politically and economically unequal relationship between the west and islam while offering a critical insight into concepts such as writing power post colonialism difference and otherness on a theoretical level mutman reveals a different perspective on islam by emphasizing its living everyday and embodied aspects in dynamic relation with the outside world in contrast to the stereotyped authoritarian and backward religion characterized by an omnipotent god throughout mutman develops an approach to culture as an embodied everyday living and ever changing practice he argues that islam should be perceived precisely in this way that is as an open heterogeneous interpretive multiple and worldly belief system within the abrahamic tradition of ethical monotheism and as one that is contested within as well as outside its own culture

in this radical reinterpretation of aristotle s metaphysics walter e wehrle demonstrates that developmental theories of aristotle are based on a faulty assumption that the fifth chapter of categories substance is an early theory of metaphysics that aristotle later abandoned the ancient commentators unanimously held that the categories was semantical and not metaphysical and so there was no conflict between it and the metaphysics proper they were right wehrle argues the modern assumption to the contrary is based on a medieval mistake and is perpetuated by the anti metaphysical postures of contemporary philosophy furthermore by using the logico semantical distinction in aristotle s works wehrle shows just how the principal contradictions in metaphysics books vii and

viii can be resolved the result in an interpretation of aristotle that challenges mainstream viewpoints revealing a supreme philosopher in sharp contrast to the developmentalists version

the literature on rural america to the extent that it exists has largely been written by urban based scholars perpetuating out of date notions and stereotypes or by those who see little difference between rural and agricultural concerns as a result the real rural america remains much misunderstood neglected or ignored by scholars and policymakers alike in response emery castle offers the changing american countryside a volume that will forever change how we look at this important subject castle brings together the writings of eminent scholars from several disciplines and varying backgrounds to take a fresh and comprehensive look at the forgotten hinterlands these authors examine the role of

non metropolitan people and places in the economic life of our nation and cover such diverse issues as poverty industry the environment education family social problems ethnicity race religion gender government public policy and regional diversity the authors are especially effective in demonstrating why rural america is so much more than just agriculture it is in fact highly diverse complex and interdependent with urban america and the international market place most major rural problems they contend simply cannot be effectively addressed in isolation from their urban and international connections to do so is misguided and even hazardous when one fourth of our population and ninety seven per cent of our land area is rural together these writings not only provide a new and more realistic view of rural life and public policy but also suggest how the field of rural studies can greatly enrich our understanding of national life
